

European Training Network on  
Safer Autonomous Systems (SAS)

**D4.4 – SAS Network-Wide Event I**

**LAAS-CNRS, Toulouse (FR), 2-5 December 2019**

Authors: Stephane Stroobant, Davy Pissoort,  
Jeroen Boydens, and Dries Vanoost

This project has received funding from the European Union's  
EU Framework Programme for Research and Innovation  
Horizon 2020 under Grant Agreement No. 812.788

## Summary

Recommendations by the Project Officer regarding the MSCA ETN SAS Mid Term Check – Toulouse 2-3 December 2019, can be found in **Annex 1**.

### **Action items:**

**\*All:** follow-up the recommendations by the Project Officer regarding the MSCA ETN SAS Mid Term Check – Toulouse 2-3 December 2019.

**\*Stephane Stroobant:** update the changes regarding the Deliverables 4.2, 6.2 and 6.6 and report them to the EC.

**\*Stephane Stroobant:** report all the changes regarding **the SAS Supervisory Committees** to the EC, with respective CVs and reasoning/motivation for these changes.

**\*Stephane Stroobant:** submit all new received signed first drafts of PCDPs to the EU H2020 Portal via **Deliverable D4.2 PCDP Report**.

**\*All:** on the SAS website ([www.etn-sas.eu](http://www.etn-sas.eu)) check the contact details and photos regarding the TEAM and CONSORTIUM and confirm/send update to the PM.

**\*All:** Use all SAS Project Visual Identity tools and EU Funding Acknowledgement regarding MSCA ETN SAS Project related activities

**\*All ESRs:** Proactively engage in SAS social media activities through the PODIO platform.

**\*All:** report the postponed due dates of Deliverables and Milestones to the PM with reasoning/motivation and mitigation plan for the delayed delivery dates of the Deliverables and Milestones

**\*Stephane Stroobant:** report the postponed due dates of Deliverables and Milestones to the EC.

**\*Orlan Dheu (ESR15):** clarify second secondment to Airbus.

**\*All:** check if ESR's nationalities cause issues for the foreseen secondments, if specific procedures need to be followed, align the secondment timings with the institutions hosting secondments and confirm to the PM.

**\* Stephane Stroobant:** report the postponed due dates of the first secondments to the EC.

## 1. Agenda

The SAS Network-Wide Event I and Mid-Term Review Meeting was held on December 2-5 2019 at LAAS-CNRS in Toulouse, France. With respect to the location: the envisioned location for this NWE I was York as mentioned in Annex I of the SAS Grant Agreement Part B. However, taking into account the Brexit and the uncertainty regarding traveling to the UK and based on the suggestion of the REA Project Officer Nina Poumpalova (Feb 5, 2019), it was decided within the SAS Consortium to hold this SAS NWE I at LAAS-CNRS in Toulouse and to have the SAS NWE II in York.

On Monday December 2<sup>nd</sup>, the Network-Wide Event was attended by the ESRs, the supervisors and their colleagues, the representatives of the partner organizations and the MST<sup>1</sup> (list of the participants can be found below). The first day started with a detailed introduction regarding the SAS progress report followed by parallel sessions regarding the three scientific work packages where technical aspects and practicalities were discussed and further fine-tuned. In the afternoon we welcomed our Research Executive Agency (REA-Project Officer Nina Poumpalova. After a tour de table during which all SAS Consortium members and ESRs presented themselves, the Project Officer gave a presentation on the monitoring of the SAS project implementation, the SAS reporting and the purpose of the Mid-Term Check. This was followed by the SAS Coordinator's report where the Coordinator presented the SAS Consortium & Mid-Term Progress Report (scientific, training and management). Then, the fellows (ESRs) 1-7 gave a pitch presentation on their background, SAS project, training, outreach, and their future career as a MSCA fellow. The first day was capped by a tasty project dinner at "Les Caves de la Maréchale" in the center of Toulouse.

Tuesday December 3<sup>rd</sup> started with the ESRs 8-15 pitch presentations which was followed by a confidential discussion between the Project Officer and all ESRs. This was followed by a feedback session given by the Project Officer to all SAS Consortium members + ESRs regarding the further alignment of the SAS Project Implementation. In the afternoon, the *LAAS-CNRS Robotic department* was visited where a demo was given regarding the LAAS-CNRS research topics. A guest lecture on *Uncertainty Theories* given by Didier Dubois was the next agenda item which was followed by a presentation regarding the conclusions of this SAS Project Meeting and the SAS Project next steps. The last part of this second day was dedicated with a visit to the new museum "La Machine" in Toulouse where participants could enjoy admiring futuristic machines and robots.

On day 3 (Wednesday December 4<sup>th</sup>, 2019), the ESRs attended a scientific/technical training on *Fault Tolerance* given by JC Fabre which was followed by a soft-skill training on *The keys to manage your doctoral project*. The ESRs ended this third day with a laser game social event where they could strengthen their teamwork in an informal environment.

---

<sup>1</sup> MST: Management Support Team

The last day (Day 4 on Thursday December 5<sup>th</sup>, 2019) of this NWE I was dedicated to a second scientific/technical training on *Dependable Autonomous Systems* given by Jérémie Guiochet. In the afternoon, the ESRs followed a second soft-skill training on *Anticipate your career path during your PhD* which was followed by a communication strategy evaluation and Intranet (Podio) introduction given by the Project Manager.

The detailed agenda of this SAS Network Wide Event I can be found in **Annex 2**.

List of SAS NWE I participants (signed versions in **Annex 3**):

First Name	Last Name	Affiliation
<b>Ahmad</b>	Adee	Bosch - ESR8
<b>Haris</b>	Aftab	University of York - ESR13
<b>Magnus</b>	Albert	SICK AG
<b>Rob</b>	Alexander	University of York
<b>Jeroen</b>	Boydens	KU Leuven
<b>Orian</b>	Dheu	KU Leuven - ESR15
<b>Ehab</b>	el Amam	RH Marine Netherlands BV
<b>Jean-Charles</b>	Fabre	LAAS-CNRS
<b>Raul Sena</b>	Ferreira	LAAS-CNRS - ESR1
<b>Roman</b>	Gansch	Robert Bosch GmbH
<b>Vibhu</b>	Gautam	University of York - ESR11
<b>Jérémie</b>	Guiochet	LAAS-CNRS
<b>Ibrahim</b>	Habli	University of York
<b>Yuan</b>	Liao	Fraunhofer ESK - ESR2
<b>Tianlei</b>	Miao	RH Marine - ESR12
<b>Peter</b>	Munk	Robert Bosch GmbH
<b>Aleksandr</b>	Ovechkin	KU Leuven - ESR5
<b>Davy</b>	Pissoort	KU Leuven

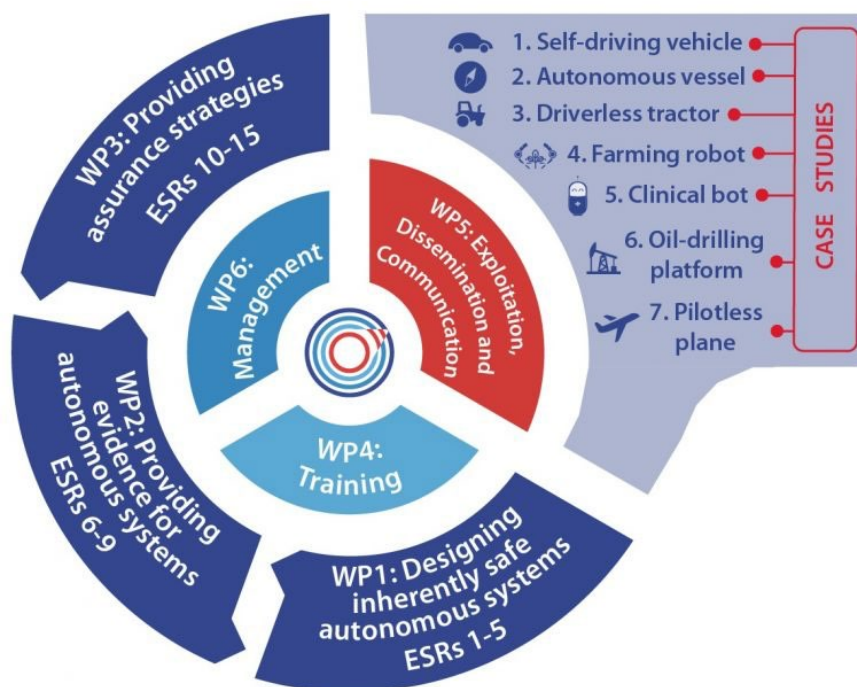

First Name	Last Name	Affiliation
<b>Nina</b>	Poumpalova	EC REA Project Officer
<b>Patrick</b>	Ringear	Airbus Operations SAS
<b>Alastair</b>	Ruddle	Horiba MIRA Ltd
<b>Luca</b>	Sartori	LAAS-CNRS - ESR6
<b>Stephane</b>	Stroobant	KU Leuven
<b>Zaid</b>	Tahir	University of York - ESR7
<b>Hassan</b>	Tirmizi	KU Leuven - ESR9
<b>Mario</b>	Trapp	Fraunhofer ESK
<b>Dejana</b>	Ugrenovic	KU Leuven - ESR4
<b>Jens</b>	Vankeirsbilck	KU Leuven
<b>Dries</b>	Vanoost	KU Leuven
<b>Marcel</b>	Verhoeven	CNH Industrial
<b>Hélène</b>	Waeselynck	LAAS-CNRS
<b>Fang</b>	Yan	University of York - ESR10
<b>Joao Vitor</b>	Zacchi	Fraunhofer ESK - ESR3

## 2. Welcome and SAS Progress report (Day 1: 9:30 – 10:30)

The SAS Project Coordinator welcomed all the participants to the SAS Network-Wide Event, followed by a quick Round Table ‘Who is who?’ of all the participants. After an overview of the 4-days agenda for this SAS Network-Wide Event, the Project Coordinator presented an overall view of the SAS Progress Report, such as the Project Consortium and the Project Governance, with attention to the following aspects and specific actions to be followed. The PPT presentation of this Agenda Item can be found in **Annex 4**.

### 2.1. Project Flow with key goals and features:

- S/T programme
- Training programme, including development of soft skills
- Network-wide events
- Active dissemination and outreach

## 2.2. Work packages

An overview of the 6 Project Work Packages, both scientific and non-scientific, was given. The WP Leader for each WP was confirmed once more at this meeting. The WP Leader is responsible for presenting the overview of the results at the network-wide meetings. An overview of each WP and its WP Leader is given below:

WP	WP Title	WP Leader
1	Designing inherently safe autonomous systems	Mario Trapp (Fraunhofer-IKS)
2	Providing evidence for autonomous systems	Peter Munk (Bosch)
3	Providing assurance strategies	Alastair Ruddle (HORIBA-Mira)
4	Training	Jérémie Guiochet (LAAS-CNRS)
5	Exploitation, Dissemination and Communication	Alastair Ruddle (HORIBA-Mira)
6	Management	Stephane Stroobant (KU Leuven)

## 2.3. Project management (team): key roles and persons in charge

An overview of the Project Management Team and the persons in charge is given below:

Management Support Team	
Coordinator	Davy Pissoort (KU Leuven)
Vice-Coordinator	Jeroen Boydens (KU Leuven)
Project Manager	Stephane Stroobant (KU Leuven)
Scientific/Technical Coordinator	Dries Vanoost (KU Leuven)
Training Coordinator	Jérémie Guiochet (LAAS-CNRS)
Exploitation & Dissemination Coordinator	Alastair Ruddle (HORIBA-Mira)
KU Leuven R&D Technical Transfer Office	Lukas Lanneau (KU Leuven)
Independent Ombudsperson	Tine Dhaese (KU Leuven)
Independent External Advisor	Paul McGuinness (Science Writer)

## 2.4. Supervisory Board

See also [SAS Project Deliverable 6.6](#)

An overview of the SAS Supervisory Board which consists of 2 Groups is given on the next page.

**Group 1 (1 vote per beneficiary):**

- D. Pissoort (PC, KU Leuven)
- J. Boydens (VC, KU Leuven)
- D. Vanoost (S/T C, KU Leuven)
- One representative from each Project Beneficiary:
  - P. Valcke (KU Leuven)
  - I. Habli (University of York)
  - J. Guiochet (LAAS-CNRS)
  - M. Trapp (Fraunhofer-ESK)
  - P. Munk (Bosch)
  - A. Ruddle (HORIBA-Mira)
  - E. el Amam (RH Marine)

**Group 2 (no formal voting rights):**

- S. Stroobant (PM, KU Leuven)
- One representative from each Partner Organisation:
  - P. Liggesmeyer (TU Kaiserslautern)
  - M. Verhoeven (CNHi)
  - M. Albert (Sick)
  - H. Joshi (Jaguar Land Rover)
  - R. Bridgeman (Lloyd's Register)
  - E. Landre (Equinor)
  - C. Segueineau (Naïo)
  - P. Ringeard (Airbus)
  - J.H. de Jong (Marin)
  - E. O'Carroll (PMT)
- **Luca Sartori** as the ESR representative

**CHANGES** to Deliverable 6.6:

- Paul Snauwaert (CNHi) is replaced by Marcel Verhoeven (CNHi) as the representative for CNHi in the SAS Supervisory Board.
- Amandine Taillard (Airbus) is replaced by Patrick Ringeard (Airbus) as the representative for Airbus in the SAS Supervisory Board.
- Gaetan Severac is replaced by Cédric Segueineau (Naïo) as the representative for Naïo in the SAS Supervisory Board.
- Luca Sartori is the ESR representative from the ESRs Researchers Council.

**Action item:**

- \* **Stephane Stroobant:** report the changes regarding **Deliverable 6.6** to the EC.

## 2.5. SAS ESRs and SAS Supervisory Committees

Amongst the 14 (out of 15) recruited ESRs, there are 8 nationalities; 2 out of 14 are female. The ESR14 position at Horiba-Mira had to be reopened. The starting date for ESR14 is foreseen on January 27<sup>th</sup>, 2020.

Overall, most of the recruited ESRs are on track regarding the specific research goals they have established in coordination with their supervisors. The fact that ESR14 still has to start has no major consequences on the work of the other 14 ESRs.

The composition of the 15 Supervisory Committees was reviewed and all committees are completed and confirmed at this moment.

An overview of all 15 Supervisory Committees is given on the next page.

**[MSCA ETN SAS] EARLY STAGE RESEARCHERS - SUPERVISORY COMMITTEES**

ESR	First Name	Last Name	Affiliation	Current Situation		
				Academic Supervisor 1	Academic Supervisor 2	Industrial Supervisor
1	Raul Sena	Ferreira	LAAS-CNRS	<i>J. Guiochet</i>	<i>M. Trapp</i>	<i>H. Joshi</i>
2	Yuan	Liao	Fraunhofer ESK	<i>M. Trapp</i>	<i>J.C. Fabre</i>	<i>R. Gansch</i>
3	Joao Vitor	Zacchi	Fraunhofer ESK	<i>M. Trapp</i>	<i>I. Habli</i>	<i>R. Gansch</i>
4	Dejana	Ugrenovic	KU Leuven	<i>J. Boydens</i>	<i>T. Holvoet</i>	<i>P. Munk</i>
5	Aleksandr	Ovechkin	KU Leuven	<i>D. Pissoort</i>	<i>G. Vandenbosch</i>	<i>E. el Amam</i>
6	Luca Vittorio	Sartori	LAAS-CNRS	<i>H. Waeselynck</i>	<i>R. Alexander</i>	<i>M. Albert</i>
7	Zaid	Tahir	University of York	<i>R. Alexander</i>	<i>H. Waeselynck</i>	<i>D. Ward</i>
8	Ahmad	Adee	Bosch	<i>P. Liggesmeyer</i>	<i>J. Boydens</i>	<i>P. Munk</i>
9	Hassan	Tirmizi	KU Leuven	<i>D. Pissoort</i>	<i>G. Vandenbosch</i>	<i>A. Ruddle</i>
10	Fang	Yan	University of York	<i>S. Foster</i>	<i>J. Guiochet</i>	<i>E. Landre</i>
11	Vibhu	Gautam	University of York	<i>R. Alexander</i>	<i>R. Hawkins</i>	<i>R. Gansch</i>
12	Tianlei	Miao	RH Marine	<i>M. Nicholson</i>	<i>P. Slaets</i>	<i>E. el Amam</i>
13	Haris	Aftab	University of York	<i>I. Habli</i>	<i>J. Guiochet</i>	<i>E. O'Carroll</i>
14	---	---	Horiba-MIRA	<i>U of Coventry?</i>	<i>D. Pissoort</i>	<i>A. Ruddle</i>
15	Orian	Dheu	KU Leuven	<i>P. Valcke</i>	<i>D. Pissoort</i>	<i>P. Ringear</i>

Regarding the ETN SAS Grant Agreement, 2 foreseen supervisors left the ETN SAS Consortium for different reasons. Prof. T. Kelly left the University of York and the substitutes for his tasks within the SAS Consortium have been confirmed by the SAS Consortium. Dr. S. Burton switched position and division at Bosch. He was replaced by Dr. R. Gansch who takes over all foreseen tasks of Dr. S. Burton.

**Action item:**

\* **Stephane Stroobant:** report all the changes regarding the SAS Supervisory Committees to the EC, with respective CVs and reasoning/motivation for these changes.

## 2.6. Researcher Declarations submission and PCDP status

All 14 Researcher Declarations for all ESRs already started have been submitted. An overview of the submitted Researchers Declarations is given below:

Researcher Declaration

No	Fellow I	First Name	Last Name	Status	Recruitment Organisation	Start Date	End Date	Working Time Commitment	Duration
1	1	Ahmad	Adee	SUBMITTED	Robert Bosch GmbH	15-02-2019	14-02-2022	Full Time	36
2	2	Orian	Dheu	SUBMITTED	Katholieke Universiteit Leuven	01-02-2019	31-01-2022	Full Time	36
3	3	Luca	Vittorio Sartori	SUBMITTED	Centre National De La Recherche Scientifique Cnrs	01-03-2019	28-02-2022	Full Time	36
4	4	Raul	Sena Ferreira	SUBMITTED	Centre National De La Recherche Scientifique Cnrs	01-03-2019	28-02-2022	Full Time	36

12	12	Aleksandr	Ovechkin	SUBMITTED	Katholieke Universiteit Leuven	19-06-2019	18-06-2022	Full Time	36
13	13	Haris	Aftab	SUBMITTED	University Of York	01-07-2019	30-06-2022	Full Time	36
14	14	Tianlei	Miao	SUBMITTED	Rh Marine Netherlands Bv	01-10-2019	30-09-2022	Full Time	36

So far 11 signed PCDPs from the 14 ESRs already started have been submitted to the EU H2020 Participants Portal. The signed PCDPs for ESR7, ESR11 and ESR12 have been sent to the PM. Those 3 PCDPs will be added to the already submitted **Deliverable D4.2 PCDP Report** after approval by the Project Officer.

### Action item:

\* **Stephane Stroobant:** submit all new received signed first drafts of PCDPs to the EU H2020 Portal via **Deliverable D4.2 PCDP Report**.

## 2.7. Training and first secondments

An overview of the trainings already followed by the ESRs was given. Furthermore, the ESRs are following research-specific trainings and general (obligatory) trainings organized by their doctoral schools, as well as (international) scientific and soft-skill workshops outside the SAS Project.

At this NWE I the following trainings were scheduled:

- S/T Training: *Fault tolerance* (JC Fabre, LAAS-CNRS)
- S/T Training: *Dependable autonomous robots* (J. Guiochet, LAAS-CNRS)
- Soft-skill Training I: *The keys to manage your doctoral project*
- Soft-skill Training II: *Anticipate your career path during your PhD*

The first secondments for the ESRs were reviewed and discussed. The Project Coordinator explained the schedule, scope, rules and settings of the secondments as they are key items of ETN's. Within the scope of those secondments, the following aspects were highlighted:

- Each secondment period should last at least one month with an advised maximum of 3 months and secondments should be held outside the host institute.

- Each ESR has one secondment in a different country and in a different sector (e.g. university and industry) while focusing on a different perspective and different facilities during those secondments.
- The Actual Secondment Period needs to be submitted at the H2020 Participant Portal (under the Tab 'Researchers') as soon as the Secondment Period has ended, so not sooner!
- Modifications (schedule changes, topic, location) can only be performed after PREVIOUS APPROVAL and on request and should be communicated with the PM who reports this to the PO.

The current status of the first secondments for the ESRs is given in the following table:

<b>[MSCA ETN SAS] EARLY STAGE RESEARCHERS</b>						
ESR	First Name	Last Name	Affiliation	1 <sup>st</sup> Secondment Location	1 <sup>st</sup> Secondment Period	1 <sup>st</sup> Secondment Local Mentor
1	Raul Sena	Ferreira	LAAS-CNRS	Fraunhofer	May - June 2020 (2m)	M. Trapp
2	Yuan	Liao	Fraunhofer ESK	LAAS-CNRS	Jan - Mar 2020 (3m)	J.C. Fabre
3	Joao Vitor	Zacchi	Fraunhofer ESK	University of York	Jan - Mar 2020 (3m)	I. Habli
4	Dejana	Ugrenovic	KU Leuven	LAAS-CNRS	Nov - Dec 2019 (5w)	J. Guiochet
5	Aleksandr	Ovechkin	KU Leuven	University of York	Feb - April 2020 (3m)	J. Dawson
6	Luca Vittorio	Sartori	LAAS-CNRS	Naio	Feb - April 2020 (3m)	G. Severac
7	Zaid	Tahir	University of York	LAAS-CNRS	Feb - April 2020 (3m)	H. Waeselynck
8	Ahmad	Adee	Bosch	TUK	Nov 2019 - Jan 2020 (3m)	P. Liggesmeyer
9	Hassan	Tirmizi	KU Leuven	University of York	Feb - April 2020 (3m)	J. Dawson
10	Fang	Yan	University of York	Equinor	Sep - Nov 2020 (3m)	E. Landre
11	Vibhu	Gautam	University of York	Bosch	April - June 2020 (3m)	R. Gansch
12	Tianlei	Miao	RH Marine	KU Leuven	April - June 2020 (3m)	D. Pissoort
13	Haris	Aftab	University of York	LAAS-CNRS	Oct - Dec 2020 (3m)	J. Guiochet
14	---	---	Horiba-MIRA	KU Leuven	April - June 2020 (3m)	J. Boydens
15	Orian	Dheu	KU Leuven	University of York	April - June 2020 (3m)	R. Alexander

**Due to the late start of some ESRs, recruitment delays and program logic, some schedule changes have been discussed for some of the planned secondments. Those changes will be followed up in the coming months by the respective Supervisors, ESRs and secondment hosts representatives and furthermore communicated with the PM who reports this to the PO.**

**Action item:**

\* **ALL:** check if ESR's nationalities cause issues for the foreseen secondments, if specific procedures need to be followed, align the secondment timings with the institutions hosting secondments and confirm to the PM.

## 2.8. Ethics

The European Commission required the SAS Consortium to write a dedicated deliverable on ethical issues and potential dual use related to autonomous systems. This **Deliverable 7.1 GEN – Requirement No.1** has been written through collaboration between KU Leuven and University of York and has been uploaded to the EU H2020 Participant Portal. A voluntary ethical self-assessment by every ESR has been specified and an Ethical Board has been established which consists of the following members:

- KU Leuven: Prof. A. Vedder and Dr. D. Vanoost
- University of York: Dr. I. Habli

## 2.9. Communication and Dissemination Outreach

### SAS Project Visual Identity

To achieve the best dissemination and communication results, the following visual identification and tools need to be used: SAS Project Logo, SAS Project Templates (for PPT, scientific conference presentations, newsletters, project reporting and deliverables). Furthermore, the **EU Funding Acknowledgement is mandatory regarding all MSCA ETN SAS Project related activities**. Examples of these tools are given below.

EU H2020 MSCA-ETN SAS  
KICK-OFF MEETING & NWE  
JULY 2<sup>ND</sup> & 3<sup>RD</sup> 2019

Crowne Plaza, Bruges - BELGIUM

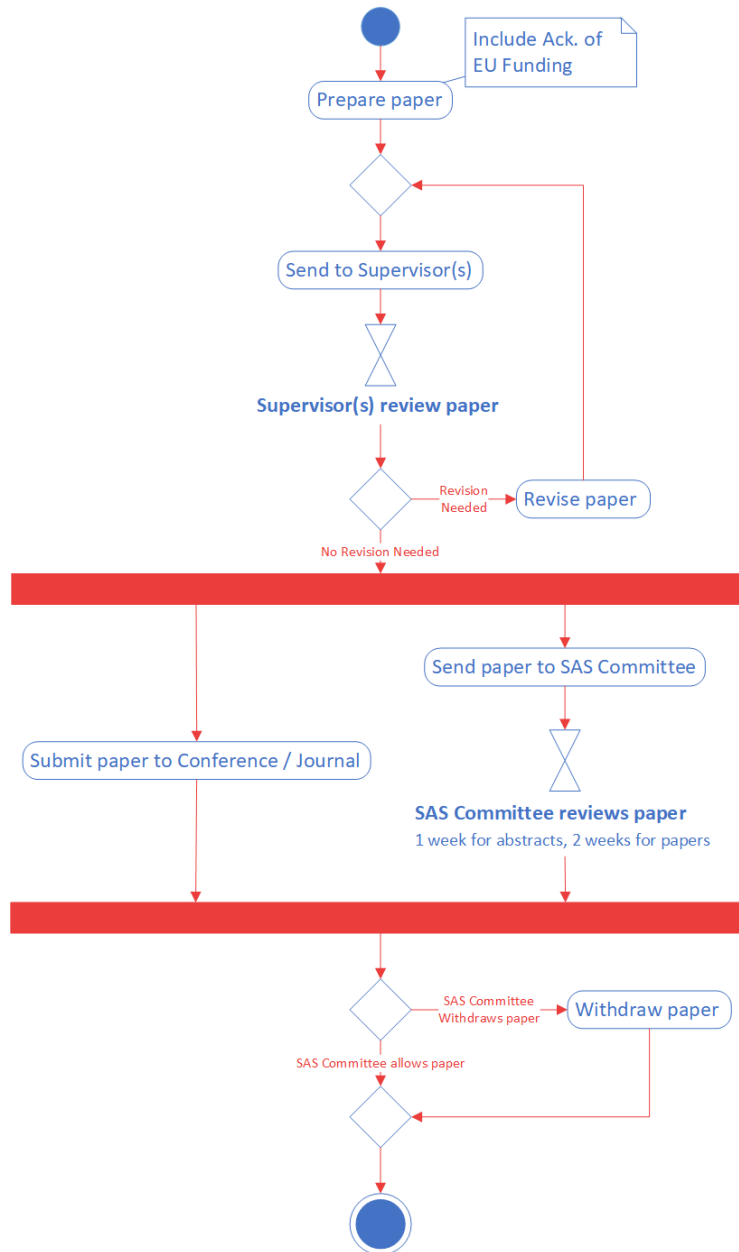

This project has received funding from the European Union's  
EU Framework Programme for Research and Innovation  
Horizon 2020 under Grant Agreement No. 812.788

**Action item:**

\* **All:** Use all SAS Project Visual Identity tools and EU Funding Acknowledgement regarding MSCA ETN SAS Project related activities.

**Post, Paper Pre-submission Procedure, Post Paper Publishing Procedure (OPEN ACCESS) and SAS Papers Archiving System**

Special attention was given again to the flowchart of the Paper Pre-submission Procedure. The flowchart of this procedure is given on the following page:

A SAS Papers Archiving System (<http://papers.etn-sas.eu/user/login/>) has been set up that is automatically linked with the SAS Project Website. Through this Archiving System, the ESRs are able to upload their peer reviewed papers (both conference and journal papers if applicable) which also allows to update the specific paper through the H2020 Participant Portal.

### SAS Website

The new SAS-Website is online since September 1<sup>st</sup>, 2019 (a temporary website was available between June 27<sup>th</sup>, 2018 and September 1<sup>st</sup>, 2019).

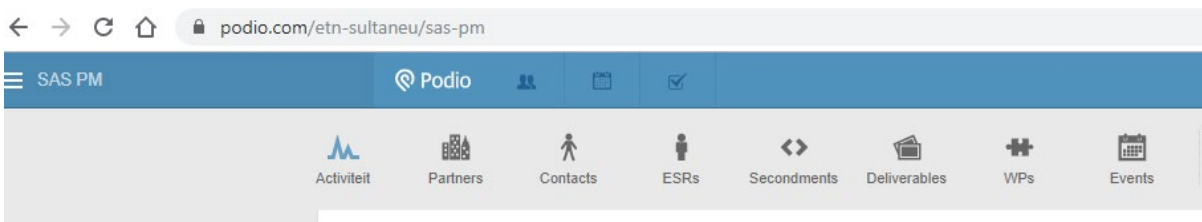

The screenshot shows the website for the Safer Autonomous Systems (SAS) project. The header includes the project logo and a navigation menu with links for HOME, PROJECT, WORK PACKAGES, TEAM, CONSORTIUM, OPEN POSITIONS, EVENTS, NEWS, COMMUNICATIONS, and CONTACT. The main content area features a central banner for a poster presentation at the 30th ICRI/CIR/CITIP: Celebratory Conference, held on Friday the 4th of October. The banner highlights that Orian Dheu (ESR15) presented the SAS project. Below the banner, there are several informational boxes: one about the project's funding from the European Union's Horizon 2020 programme (Grant Agreement No 812788), another about the project's focus on legal challenges and liability, and a third about the project's goals and challenges. A 'RECENT POSTS' section on the right lists three posts: 'Uncertainties and Automated Driving' (19 days ago), 'SAS poster presentation at 30 years ICRI/CIR/CITIP: Celebratory Conference' (22 days ago), and '1 PhD position in ETN SAS project' (25 days ago). The footer includes the text 'SAS - SAFER AUTONOMOUS SYSTEMS' and a brief description of the project's focus on autonomous systems and artificial intelligence.

### SAS Blogs, Social Media and Internal Communication (PODIO)

The ESRs are actively involved in communication and dissemination activities. So far, the ESRs have written and published 8 blog posts presenting their work for the general public. Furthermore, the ESRs have published several posts on Social Media (on SAS Facebook, Twitter and LinkedIn channels).

A password-protected Intranet, **PODIO**, has been set up as an internal communication tool between the SAS Management Support Team and all ESRs. This developed Intranet is also a storage space for ESRs' PCDPs, RTDEs, Progress Reports, Deliverables, minutes of WP meetings, NWE reports,...

The screenshot shows the Podio intranet interface. The browser address bar displays 'podio.com/etn-sultaneu/sas-pm'. The interface includes a navigation bar with the 'SAS PM' label and the Podio logo. Below the navigation bar, there is a menu with icons for various sections: Activiteit, Partners, Contacts, ESRs, Secondments, Deliverables, WPs, and Events.

A special explanation and training/workshop regarding the **SAS Papers Archiving System** and **PODIO** was given to the ESRs on Day 4 of this Network-Wide Event.

### **SAS Video**

A SAS Promo Video will be developed and published during the second year of the SAS Project. This video will explain the project goals and present the team and the collaborating partners. More specifically, this video will be made in collaboration with Storyrunner. They are very acquainted with developing Marie Curie/Best Practice Award Winning Videos in collaboration with KU Leuven.

### **2.10. Project Deliverables and Milestones (submitted and upcoming)**

An overview of the first Project Deliverables and Milestones from the H2020 Participant Portal was given to indicate this workflow and to point out that each beneficiary needs to take responsibility for the Deliverable and Milestone they are the lead for.

Furthermore, project Deliverables and Milestones were discussed during the parallel WP sessions with respect to the feasibility of the scientific and technical deliverables & milestones due to specific ESR recruitment delays and later than foreseen starting dates of ESRs. More information regarding the outcome of these WP parallel sessions can be found under the next section.

## **3. WP parallel sessions (Day 1: 10:30 – 12:00)**

A session for WP parallel discussions for WP1-3 was organized where each appointed WP leader interacted with the ESRs, the Supervisors and the representatives of the Partner Organizations regarding the specific WP and its scientific aspects. The focus in each WP session consisted on the specific tasks, scientific deliverables, milestones and data management plan of each WP. The PPT presentation regarding these WP parallel sessions can be found in **Annex 5**.

This session was followed by an interactive Q&A session between WPs to clarify some technical aspects and practicalities.

The outcome and summary of those WP sessions can be found on the following pages.

### 3.1. Work Package 1 – Designing inherently safe autonomous systems

#### DELIVERABLES WORK PACKAGE 1

No.	Title	Lead	Type	Diss. Level	Due Date
D1.1	Report on first version of the language for the expression of safety constraints and synthesis of safety	CNRS (Raul)	Report	public	M 24 (Oct. 20)
D1.2	Publication on initial implementation of run-time safety contracts and according monitoring architectures	Fraunhofer (João)	Report	public	M 27 (Jan. 21)
D1.3	Publication on the effectiveness of EM-diverse redundancy to harden wireless interconnectivity	KU Leuven (Aleksandr)	Report	public	M 31 (May 21)
D1.4	Report on validation of MAPE-K-based architecture and underlying adaptation concepts in an industrial context	Fraunhofer (Yuan)	Report	public	M 42 (Apr. 22)
D1.5	Report on the practical assessment and evaluation of safety-critical software design and testing strategies	KU Leuven (Dejana)	Report	public	M 42 (Apr. 22)

#### MILESTONES WORK PACKAGE 1

No.	Title	Lead	Means of verific.	Due Date	Delivery Date
MS1.1	Different safety assurance frameworks compared on simplified, virtual autonomous system	LAAS (Raul)	Report available	M 13 (Nov. 19)	Dec 2, 2019
MS1.2	Decision on which wireless communication protocols to be considered for study on EMI-aware design techniques and measures <b>+5 months: rationale &gt; after the secondment of the ESR at University of York</b>	KU Leuven (Aleksandr)	Overview list available	<b>M 18 (April 20)</b> M 13 (Nov. 19)	
MS1.3	Initial implementation of run-time safety contracts and according monitoring architectures	Fraunhofer (João)	Report available	M 27 (Jan. 21)	
MS1.4	Software design and testing strategies assessed on testcase of autonomous robot	KU Leuven (Dejana)	Report available	M 36 (Oct. 21)	
MS1.5	Peer-reviewed publication on full implementation of MAPE-K based adaptive platform for autonomous systems	Fraunhofer (Yuan)	Paper accepted for publication in peer-reviewed journal	M 40 (Feb. 22)	

### 3.2. Work Package 2 – Providing evidence for autonomous systems

#### DELIVERABLES WORK PACKAGE 2

No.	Title	Lead	Type	Diss. Level	Due Date
D2.1	Report on first experiment of the virtual worlds generation on a robotic simulator <b>+6 months: rationale &gt; late start of ESR and IP issues with the case study &gt; after the secondment</b>	LAAS (Luca)	Report	public	<b>M 19 (May 20)</b> M 13 (Nov. 19)
D2.2	Report on validation of virtual EMI-aware V&V framework on academic testcases	KU Leuven (Hassan)	Report	public	M 31 (May 21)
D2.3	Report discussing the completeness of model-based system analysis when dealing with functional insufficiencies	Bosch (Ahmad)	Report	public	M 31 (May 21)
D2.4	Publication on the situation coverage testing approach applied to a representative automotive case study	University of York (Zaid)	Report	public	M 40 (Feb. 22)

#### MILESTONES WORK PACKAGE 2

No.	Title	Lead	Means of verific.	Due Date	Delivery Date
MS2.1	Decision on which model-based system analysis suits are fitted best to cope with functional insufficiencies	Bosch (Ahmad)	Overview on (dis)advantages of the model-based system analysis suits available	M 13 (Nov. 19)	Nov 27, 2019
MS2.2	First experiment of virtual world generation completed for robotic simulator <b>+6 months: rationale &gt; late start of ESR and IP issues with the case study</b>	LAAS (Luca)	Report available	<b>M 19 (May 20)</b> M 13 (Nov. 19)	
MS2.3	Statistical V&V framework for EMI analysis completed	KU Leuven (Hassan)	Simulation framework available	M 22 (Aug. 20)	
MS2.4	Complete prototype tooling for situation coverage testing available and working for a small example	University of York (Zaid)	Description of tools available	M 26 (Dec. 20)	

### 3.3. Work Package 3 – Providing assurance strategies

#### DELIVERABLES WORK PACKAGE 3

No.	Title	Lead	Type	Diss. Level	Due Date
D3.1	Literature review of safety challenges associated with the use of intelligent conversational bots <b>+8 months: rationale &gt; program logic</b>	University of York (Haris)	Report	public	<b>M 21 (July 20)</b> M 13 (Nov. 19)
D3.2	Report on executable safety assurance case models for autonomous drilling use-case <b>+3 months: rationale &gt; depending on secondment timing</b>	University of York (Fang)	Report	public	<b>M 27 (Jan 21)</b> M 24 (Okt. 20)
D3.3	Documented assurance case patterns for ML in autonomous vehicles <b>+4 months: rationale &gt; depends on secondment timing at Horiba-MIRA for ESR11</b>	University of York (Vibhu)	Report	public	<b>M 34 (Aug. 21)</b> M 30 (Apr. 21)

No.	Title	Lead	Type	Diss. Level	Due Date
D3.4	Publication on bottlenecks and inconsistencies in the existing liability regimes when applied to autonomous systems and proposed new criteria for liability allocation <b>+2 months: rationale &gt; program logic</b>	KU Leuven (Orlan)	Report	public	<b>M 36 (Okt. 21)</b> M 34 (Aug. 21)
D3.5	Report on simulation environment comprising algorithms for optimization, situational awareness and collision avoidance <b>+12 months: rationale &gt; recruitment delays (RH Marine)</b>	RH Marine (Tianlei)	Report	public	<b>M 48 (Okt. 22)</b> M 36 (Okt. 21)
D3.6	Report on pilot demonstration of the common framework for developing wider dependability assurance cases <b>+8 months: rationale &gt; recruitment delays (Horiba-MIRA)</b>	Horiba – MIRA (---)	Report	public	<b>M48 (Okt. 22)</b> M 40 (Feb. 22)

**MILESTONES WORK PACKAGE 3**

No.	Title	Lead	Means of verific.	Due Date	Delivery Data
MS3.1	Documented set of vehicle use cases for assurance case structures incorporating machine learning <b>+9 months: rationale &gt; depends on secondment timing at Bosch for ESR11</b>	University of York (Vibhu)	Report available	<b>M 21 (July 20)</b> M 12 (Okt. 19)	
MS3.2	Review of relevant techniques from functional safety, cyber security, dependability, etc. <b>+9 months: rationale &gt; recruitment delays (Horiba-Mira)</b>	Horiba – MIRA (---)	Overview list available	<b>M 21 (July 20)</b> M 12 (Okt. 19)	
MS3.3	Bottlenecks and inconsistencies in the existing liability regimes when applied to autonomous systems identified <b>+10 months: rationale &gt; program logic</b>	KU Leuven (Orian)	Report available	<b>M 28 (Feb. 21)</b> M 18 (Apr. 20)	

No.	Title	Lead	Means of verific.	Due Date	Delivery Date
MS3.4	Safety concept and architectural strategies for clinical conversational bots <b>+12 months: rationale &gt; program logic</b>	University of York (Haris)	Report available	<b>M 37 (Nov. 21)</b> M 25 (Nov. 20)	
MS3.5	Situational and collision avoidance algorithms finalized <b>+12 months: rationale &gt; recruitment delays (RH Marine)</b>	RH Marine (Tianlei)	Algorithms implemented and tested	<b>M 40 (Feb. 22)</b> M 28 (Feb. 21)	
MS3.6	Run-time Assurance Engine using executable structured assurance case meta-models completed <b>+2 months: rationale &gt; recruitment delays</b>	University of York (Fang)	Assurance engine available	<b>M 33 (July 21)</b> M 31 (May 21)	

**Action items WP1-3:**

\* **All:** report the postponed due dates of Deliverables and Milestones to the PM with reasoning/motivation and mitigation plan for the delayed delivery dates of the Deliverables and Milestones.

\* **Stephane Stroobant:** report the postponed due dates of Deliverables and Milestones to the EC.

## 4. Supervisory Board Meeting (Day 1: 12:00 – 13:00)

During this part of the NWE, all SAS Supervisory Board members present, the ESR representative Luca Sartori included, joint together for the **1<sup>st</sup> Annual SB meeting**, as also foreseen under Milestone 7 of the SAS Project. The Agenda for this Supervisory Board Meeting can be found in **Annex 6**.

The outcome and minutes of this Supervisory Board Meeting are described below.

### Agenda items + outcome:

1. ESR14 Position at Horiba-Mira
  - The position was re-opened in September 2019.
  - 44 candidates applied of which 22 eligible.
  - Recruited candidate (Spain) who applied for a PhD at University of Coventry.
  - Start date of the recruited ESR is foreseen on January 27<sup>th</sup>, 2020.
  - Horiba-Mira will only receive EU Funding for 33 months instead of initially 36 months.
2. ESR7 Zaid Tahir
  - Zaid was not awarded the required ATAS certificate to pursue a PhD in the UK after 2 applications.
  - Furthermore, his ATAS review appeal was also rejected.
  - However, Zaid was awarded his work permit and VISA allowing him to be a research associate at the University of York.
  - Zaid will receive training as foreseen in the SAS Project Proposal.
3. Secondments: any known issues?
  - Airbus -> Advice for Orian (ESR15) to get urgently in touch with Airbus to clarify on a possible secondment there. Consider LAAS-CNRS as a possible alternative.
  - Secondments in the UK: not applying as a visiting student but as a visiting researcher.
4. Paper author list + Paper Presubmission Procedure
  - The flowchart of the paper presubmission procedure was reviewed and approved.
  - Rules regarding the author list: ensure that the main supervisors of the ESRs are mentioned on the respective paper. Supervisory Committee should be informed.
5. ESRs Payments: no known issues
6. Ethics Deliverable:
  - Ethics assessment for each ESR is recommended.
  - No specific ethical aspects on how the respective research gets into dual use.

7. NWE 2 and 3:

- **SAS NWE 2 in York (UK) @ Department of Computer** is scheduled from June 29 to July 3, 2020.
- **SAS NWE 3 in Munich (GE) @ Fraunhofer** is scheduled from November 17 to 20, 2020.

8. Video:

- SAS Video will be developed in collaboration with Storyrunner.
- Proposal as video material to film an autonomous tractor from CNHi, Zedelgem (BE).

9. Any other Business:

- Luca, the ESR representative, pointed out that 1 ESR did not well-process received feedback and therefore could not positively accept the received critics. SAS Consortium advised to organize a soft-skill training regarding handling with feedback and criticism between supervisor and ESR.
- Peter (Bosch) is a big fan of stickers. Promo material regarding the SAS Project could add extra project visual identity and will be investigated furthermore.

## 5. ESR Researchers Council (Day 1: 12:00 – 13:00)

The ESRs present at the NWE were able to discuss project-related topics between the ESRs in order to facilitate interaction between them during this first ESR Researchers Council. They were able to share experiences in their research, as well as discuss regarding training, communication, and project management.

A president (Aleksandr Ovechkin) and secretary (Ahmad Adeed) were appointed to moderate this ESR Researchers Council and to prepare a short report as a basis for communicating to the Supervisory Board.

The report of this first ESR Researcher Council can be found in **Annex 7**.

## 6. REA Project Officer presentation: Mid-Term Check (Day 1: 14:00 – 15:00)

After the lunch break on Day 1, the SAS Consortium + ESRs welcomed the REA Project Officer Nina Poumpalova. After a quick tour de table where each SAS Consortium member and ESR presented themselves to the REA Project Officer, the Project Officer gave a presentation on the monitoring of the SAS project implementation, the SAS reporting and the purpose of the Mid-Term Check. This PPT presentation can be found in **Annex 8** (PO\_Nina\_Mid-term-Check\_presentation SAS).

## 7. Coordinator's report (Day 1: 15:00 – 15:30)

In this session, the Coordinator presented the SAS Consortium & Mid-Term Progress Report with attention to the following aspects: SAS Consortium, Scientific Objective, General Scientific/Technical Progress, Training, Recruitment, Project Management, Communication and Dissemination, and Deliverables & Milestones. The SAS Progress Report, submitted under **Deliverable 6.3 Progress Report**, was the basis for this Coordinator's report and was furthermore the starting point for the REA Project Officer regarding her feedback with respect to the SAS Mid-Term Review Meeting. The PPT presentation of this Coordinator's report can be found in **Annex 9** ([MSCA ETN SAS]\_Coordinators\_Report).

## 8. Individual ESRs presentations (Day 1: 15:45 – 17:00 + Day 2: 9:00 – 10:15)

During this part of the NWE, the ESRs presented themselves, their background, their specific ESR position and role within the project, and their scientific progress as fellow within the SAS Project. All presentations were of high quality while bright ideas regarding their outreach contribution and future career as MSCA fellow were highly appreciated. The PPT Template regarding the individual ESRs presentations can be found in **Annex 10** ([MSCA ETN SAS]\_NWE I\_December 2-3\_Toulouse\_Template\_PitchPresentationESR).

## 9. Confidential discussions with Project Officer and ESRs (Day 2: 10:15 – 11:30)

In this confidential meeting, all SAS ESRs were able to discuss with the REA Project Officer regarding their experiences within the SAS Project in terms of administration, supervision and integration, training, progress, and the impact on their future careers.

## 10. Feedback REA Project Officer (Day 2: 11:45 – 12:45)

After the confidential discussions between the Project Officer and the SAS ESRs, all SAS Consortium members and ESRs joint together for the final session regarding the SAS Mid-Term Progress Report. In this session, the REA Project Officer Nina Poumpalova gave her feedback on the output of the SAS Project so far, on possible training areas for future exploitation, and on the impact on fellows' future careers development. The recommendations from the Project Officer following the Mid-Term Progress Report have been sent via the **H2020 Participants Portal Communication Tab**. Further actions regarding these recommendations will be followed up by the SAS Management Support Team and carried out towards the SAS Consortium in order to further align the SAS Project implementation. Those recommendations can be found in **Annex 1**.

## 11. Lab visit, Guest Lecture, Conclusions, and Museum visit (Day 2: 13:45 – 18:00)

On day 2, the afternoon started with a visit to the *LAAS-CNRS Robotic department* where a demo was given regarding the LAAS-CNRS research tendencies. A guest lecture on *Uncertainty Theories* given by Didier Dubois was the next agenda item which was followed by a presentation regarding the conclusions of this SAS Project Meeting and the SAS Project next steps. This PPT presentation can be found in **Annex 11** ([MSCA ETN SAS]\_NWE I\_Conclusions of the meeting + next steps).

The last part of this second day was dedicated with a visit to the new museum “La Machine” in Toulouse where participants could enjoy admiring futuristic machines and robots.

## 12. NWE I: Day 3-4 ESRs S/T and soft-skill Trainings

The final two days of this Network Wide Event consist of technical and soft-skill trainings for the ESRs. On day 3 (Wednesday December 4th, 2019), the ESRs attended a scientific/technical training on *Fault Tolerance* given by JC Fabre which was followed by a soft-skill training on *The keys to manage your doctoral project*. The ESRs ended this third day with a laser game social event where they could strengthen their teamwork in an informal environment.

The last day (Day 4 on Thursday December 5th, 2019) of this NWE I was dedicated to a second scientific/technical training on *Dependable Autonomous Systems* given by Jérémie Guiochet. In the afternoon, the ESRs followed a second soft-skill training on *Anticipate your career path during your PhD* which was followed by a communication strategy evaluation and Intranet (PODIO) introduction given by the Project Manager.

## 13. Photos MSCA ETN SAS Network Wide Event I Toulouse

Photos SAS NWE 1 Toulouse Day 1-2 (December 2-3, 2019, LAAS-CNRS)

Photos SAS NWE 1 Toulouse Day 3-4 (December 4-5, 2019, LAAS-CNRS)

## 14. Survey SAS NWE I, Dec 2-5 2019, LAAS-CNRS, Toulouse

After the SAS NWE I, a short online survey has been sent to all the participants to obtain valuable feedback in order to further improve the quality of future network wide events. A part of this survey can be found in **Annex 12**.

Survey results (20 respondents (out of 32); 1 to 5 scale with 1 = Poor and 5 = Excellent)

Subject	Item	Average
Content	Progress Report Presentation	4.53
	WP Parallel meeting	4.47
	ESR Pitch Presentations	4.63
Venue	Lunches and Coffee Breaks	4.51
	Project Dinner	5
Social Program	LAAS-CNRS Robotic department visit and demo	4.6
	Museum visit "La Machine"	4.65
	Guest Lecture "Uncertainty Theories: a Unified View"	4.05
	ESR Laser Game	5
ESR Trainings (8 respondents (out of 12))	"Fault Tolerance" by prof. Fabre	5
	"The keys to manage your doctoral project"	4.88
	"Dependable Autonomous Robots" by prof. Guiochet	5
	"Anticipate your career path during your PhD"	4.88
	"Communication strategy evaluation and Intranet introduction" by PM, CM and S/T Coordinator	4.88
General	Overall rating	4.72

### Survey comments:

- Although they were really stressed, the ESRs really presented well.
- Excellent organization!
- Although PO gave comments on progress report, a lot of effort is already put in it to give a good overview of what we already accomplished in this project.
- The work parallel session was not organised well, was not constructive.
- Need scope/architecture discussion of the whole WP.
- Nice to see the department as well, Social event highly appreciated.
- The museum was a real surprise!!
- Coffee breaks, lunches and project dinner very good!
- The courses and activities are all fantastic and practical.

## 15. Table overview with Annexes + Annexes

Annex 1	Recommendations Mid Term Check by the PO

**Recommendations Mid Term Check by the PO**

Grant Agreement: 812788 - SAS

EUROPEAN COMMISSION  
RESEARCH EXECUTIVE AGENCY

Unit A1  
Marie Skłodowska-Curie – Innovative Training Networks

## **To the Primary Coordinator Contact in charge**

**Subject: H2020-MSCA-ITN-2018**  
**Grant Agreement 812788- SAS**

**Recommendations – Mid Term check – Toulouse 2-3 December 2019**

Dear Sir,

I am writing in connection with the above-mentioned grant.

Please find enclosed the recommendations following the mid term check in Toulouse last 2-3 December 2019 which will need to be reported in the Technical periodic report together with an explanation on their implementation.

### **Recommendations and Issues for follow up:**

The entire consortium has been working very hard towards the achievement of the proposed objectives. The project management is very good, dedicated and committed. The PO congratulated the consortium and encouraged them to keep up the good work. The PO also congratulated the fellows for their hard work and enthusiasm.

The PO reminded the consortium that any deviation from the DoA needed to be discussed beforehand with the PO. The PO requested that the changes in the supervision team were addressed in a letter (CVs of new supervisors) and submitted through the Formal Notification tab.

The PO requested that a mitigation plan for the delayed recruitment of ESR 14 (MIRA Ltd) is prepared and submitted also through the Formal Notification tab.

The PO recommended that a Formal Notification is sent by the Coordinator to briefly explain the chain delay in some deliverables due to late recruitment.

The PO requested that the comments in the milestones tab on the portal are also completed.

The PO recommended that the fellows play an active role in the updating of the website by highlighting the innovative aspects of their projects.

The PO reminded the consortium that the fellows are to dedicate 100% of their time to their project.

The PO reminded the consortium that expenses related to visa costs, registration fees, student services, language course needed to be reimbursed from the Institutional Costs B1 category.

The PO reminded the consortium that assistance to the fellows with regard to their reallocation when on secondment was welcome and that the fees for the housing and travel are to be taken from the Institutional Costs B1 category. The PO proposed to share best practices such as apartment sharing / exchange, etc.

The PO recommended that all fellows follow up on their soft skills: public speaking, PP presentations, talking to the media, proposal writing, management, etc ...

The PO reminded the consortium that the publications in peer-review journals need to be in Open Access.

The PO requested that commitment letters from TUM and University of Toulouse be sent.

The PO recommended that the coordinator requests a re-commitment from the Partners who are unresponsive and to look for alternative solutions in order to implement the secondments as per the DoA.

The PO recommended that the fellows attend the Researchers night in September 2020.

The PO can assist with VISA support letters when deemed necessary.

Please ensure that the other members of your consortium are informed of this letter.

Yours faithfully,

Nina Poumpalova (e-signed)

Project Officer

*Annex 2*  
Detailed Agenda SAS NWE I Dec 2-5, 2019

European Training Network for  
Safer Autonomous Systems

MSCA ETN SAS Network Wide Event 1  
Toulouse, 02-05.12.2019

DETAILED AGENDA

Location: **Toulouse (FR) @ LAAS-CNRS**, 7 Avenue du Colonel Roche, 31031 Toulouse

How to get there: <https://www.laas.fr/public/en/how-get-laas>

Hotel accommodation link: <https://www.laas.fr/public/en/accomodation-short-stay>

**MONDAY 02.12.2019 – Day 1**

ESRs + Supervisors & their colleagues + representatives of the Partner Organizations  
+ Management Support Team + **Project Officer (from 14:00)**

Time	Meeting room: <b>Salle Europe, LAAS-CNRS</b>
9:00 – 9:30	Welcome with coffee and refreshments
9:30 – 10:30	Progress report
10:30 – 12:00	WP Parallel Sessions (Coffee Break included) <b>WP1: Tourmalet - WP2: Vignemale - WP3: Europe</b>
12:00 – 13:00	MST/Supervisory Board Meeting   ESR Researchers Council ( <b>Hourgade</b> )
13:00 – 14:00	<i>Lunch break</i>
14:00 – 14:05	Welcome by REA Project Officer and Project Coordinator
14:05 – 14:25	Tour de table: Introduction of the beneficiaries and partner organizations, their research team and role within the project
14:25 – 14:45	REA Project Officer presentation: presentation on the monitoring of project implementation, reporting and purpose of the mid-term check
14:45 – 15:00	Questions & Answers
15:00 – 15:30	Coordinator’s report: presentation of the Consortium & Mid-term progress report (scientific, training and management)
15:30 – 15:45	<i>Short break</i>
15:45 – 17:00	Individual ESRs presentations (5 min + 2 min Q&A) - 8 ESRs
20:00	Official project dinner Toulouse downtown “Les caves de la Maréchale”

## TUESDAY 03.12.2019 – Day 2

ESRs + Supervisors & their colleagues + representatives of the Partner Organizations  
+ Management Support Team + Project Officer

Time	Meeting room: <b>Salle Europe, LAAS-CNRS</b>
09:00 – 10:15	Individual ESRs presentations (5 min + 2 min Q&A) - 7 ESRs
10:15 – 11:30	Confidential discussions with PO and all fellows
11:30 – 11:45	<i>Short break</i>
11:45 – 12:45	Feed-back and Q&A between Project Coordinator / MST / SAS Partners and Project Officer
12:45 – 13:45	<i>Lunch break</i>
13:45 – 14:45	LAAS-CNRS Robotic department visit + demo
15:00 – 16:00	Guest lecture – Didier Dubois (IRIT, France)
16:00 – 16:30	Conclusions of the meeting + project next steps
17:00 – 18:00	Visit of the new museum “La Machine”
18:00	Bus to Toulouse city center

## WEDNESDAY 04.12.2019 – Day 3: S/T Training and Soft-skill training

ESRs + Optional: Management Support Team + Supervisors & their colleagues

Time	Meeting room: <b>Hourgade, LAAS-CNRS</b>
09:00 – 12:00	S/T Training: Fault tolerance (JC Fabre, LAAS-CNRS)
12:00 – 13:00	<i>Lunch break</i>
13:00 – 16:00	Soft-skill Training I: The keys to manage your doctoral project
18:00 – 19:30	ESRs social event organized by ESRs Luca and Raul (Laser game)

## THURSDAY 05.12.2019 – Day 4: S/T Training and Soft-skill training

ESRs + Optional: Management Support Team + Supervisors & their colleagues

Time	Meeting room: <b>Hourgade, LAAS-CNRS</b>
09:00 – 12:00	S/T Training: Dependable autonomous robots (J. Guiochet, LAAS-CNRS)
12:00 – 13:00	<i>Lunch break</i>
13:00 – 16:00	Soft-skill Training II: Anticipate your career path during your PhD
16:00 – 16:30	<i>Short break</i>
16:30 – 18:00	Communication strategy evaluation and Intranet (Podio) introduction (PM)

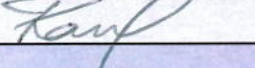

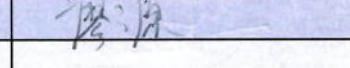

This project has received funding from the European Union's EU Framework Programme for Research and Innovation Horizon 2020 under Grant Agreement No. 812.788

# Safer Autonomous Systems

NETWORK WIDE EVENT 1  
TOULOUSE, 2-5 DECEMBER 2019

This project has received funding from the European Union's EU Framework Programme for Research and Innovation Horizon 2020 under Grant Agreement No. 812.788

MSCA-ETN SAS NWE1 2 December 2019

## First things first

- Security form LAAS-CNRS; all completed?
- Always keep your ID card with you at LAAS-CNRS
- Coffee breaks and lunch breaks during this Event at LAAS-CNRS will be in the Main Hall
- Further logistic and practical matters: **please ask Jérémie**
- **@Jérémie: other practicalities to mention right now?**

MSCA-ETN SAS NWE1 2 December 2019

## Round table

# Who is who?

MSCA-ETN SAS NWE1 2 December 2019

## NWE1 meeting (Toulouse, France) AGENDA Day 1 (Mon, 2 December)

ESRs + Supervisors & their colleagues + representatives of the Partner Organizations + Management Support Team + **Project Officer (from 14:00)**

Time	Meeting room: <b>Salle Europe, LAAS-CNRS</b>
9:00 – 9:30	Welcome with coffee and refreshments
9:30 – 10:30	Progress report
10:30 – 12:00	WP Parallel Sessions (Coffee Break included) <b>WPs: Tourmalet, WPs: Vignemale, WPs: Europe</b>
12:00 – 13:00	MST/Supervisory Board Meeting   ESR Researchers Council ( <b>Hourcade</b> )
13:00 – 14:00	Lunch break
14:00 – 14:05	Welcome by REA Project Officer and Project Coordinator
14:05 – 14:25	Tour de table: Introduction of the beneficiaries and partner organizations, their research team and role within the project
14:25 – 14:45	REA Project Officer presentation: presentation on the monitoring of project implementation, reporting and purpose of the mid-term check
14:45 – 15:00	Questions & answers
15:00 – 15:30	Coordinator's report: presentation of the Consortium & Mid-term progress report (scientific, training and management)
15:30 – 15:45	Short break
15:45 – 17:00	Individual ESRs presentations (5 min + 2 min Q&A) - 8 ESRs
20:00	Official project dinner Toulouse downtown "Les caves de la Maréchale"

MSCA-ETN SAS NWE1 2 December 2019

## NWE1 meeting (Toulouse, France) AGENDA Day 2 (Tue, 3 December)

**TUESDAY 03.12.2019 – Day 2**  
ESRs + Supervisors & their colleagues + representatives of the Partner Organizations + Management Support Team + **Project Officer**

Time	Meeting room: <b>Salle Europe, LAAS-CNRS</b>
09:00 – 10:15	Individual ESRs presentations (5 min + 2 min Q&A) - 7 ESRs
10:15 – 11:30	Confidential discussions with PO and all fellows
11:30 – 11:45	Short break
11:45 – 12:45	Feed-back and Q&A between Project Coordinator / MST / SAS Partners and Project Officer
12:45 – 13:45	Lunch break
13:45 – 14:45	LAAS-CNRS Robotic department visit + demo
15:00 – 16:00	Guest lecture – Didier Dubois (IRIT, France)
16:00 – 16:30	Conclusions of the meeting + project next steps
17:00 – 18:00	Visit of the new museum "La Machine"
18:00	Bus to Toulouse city center

MSCA-ETN SAS NWE1 2 December 2019

## NWE1 meeting (Toulouse, France)

### AGENDA Day 3-4 (Wed-Thu, 4-5 December)

**WEDNESDAY 04.12.2019 – Day 3: S/T Training and Soft-skill training**  
**ESRs + Optional: Management Support Team + Supervisors & their colleagues**

Time	Meeting room: <b>Hourcade, LAAS-CNRS</b>
09:00 – 12:00	S/T Training: Fault tolerance (JC Fabre, LAAS-CNRS)
12:00 – 13:00	Lunch break
13:00 – 16:00	Soft-skill Training I: The keys to manage your doctoral project.
18:00 – 19:30	ESRs social event organized by ESRs Luca and Paul (Laser game)

**THURSDAY 05.12.2019 – Day 4: S/T Training and Soft-skill training**  
**ESRs + Optional: Management Support Team + Supervisors & their colleagues**

Time	Meeting room: <b>Hourcade, LAAS-CNRS</b>
09:00 – 12:00	S/T Training: Dependable autonomous robots (J. Guichet, LAAS-CNRS)
12:00 – 13:00	Lunch break
13:00 – 16:00	Soft-skill Training II: Anticipate your career path during your PhD
18:00 – 19:30	Short break
16:30 – 18:00	Communication strategy evaluation and Intranet (Podio) introduction (PM)

MSCA-ETN SAS NWE1 2 December 2019

## Safer Autonomous Systems

9
SAS Consortium

Beneficiaries
Academic Participants
Automotive
Robotics
Health
Oil & Gas

Partner Organisations
Non-academic participants
Aircraft
Agriculture
IoT
Nautical

## SAS Consortium

**7 Beneficiaries in 5 Countries:**

- BE: KU Leuven (4 ESRs)
- UK: University of York (4 ESRs)
- FR: LAAS-CNRS (2 ESRs)
- GE: Fraunhofer (2 ESRs)
- GE: Bosch (1 ESR)
- UK: Horiba MIRA (1 ESR)
- NL: RH Marine (1 ESR)

**10 Partner Organisations:**

- GE: TU Kaiserslautern
- BE: CNH Industrial
- GE: SICK
- UK: Jaguar Land Rover
- UK: Lloyd's Register
- FR: Airbus
- FR: Naïo Technologies
- NO: Equinor
- NL: MARIN
- IE: Portable Medical Technology

MSCA-ETN SAS NWE1 2 December 2019

## SAS Project Flow

**Key goals/features:**

- S/T programme
- Training programme, incl. development of soft skills
- Network-wide events
- Active dissemination and outreach

"The destination, therefore, is clear; the route, however, is a difficult one. The Safer Autonomous Systems ITN project is designed to get us to our destination, safely."

MSCA-ETN SAS NWE1 2 December 2019

## SAS Work Packages

WP No.	WP Title	Lead Be ref No.	Start Month	End month	Activity Type	Lead Benef.	ESR Involvement
1	Designing inherently safe autonomous systems	4	7	42	Research	FHG	ESR1-ESR5
2	Providing evidence for autonomous systems	5	7	42	Research	Bosch	ESR6-ESR9
3	Providing assurance strategies	2	7	42	Research	UoY	ESR10-ESR15
4	Training	3	7	48	Training	LAAS	All ESRs
5	Exploitation, Dissemination and Communication	6	1	48	Dissemination	MIRA	All ESRs
6	Management	1	1	48	Management	KU Leuven	All ESRs

**WP Leaders:**  
**WP1:** M. Trapp  
**WP2:** P. Munk  
**WP3:** R. Alexander  
**WP4:** J. Guiochet  
**WP5:** A. Ruddle  
**WP6:** S. Stroobant

Each WP Leader is responsible for presenting the overview of the results at the network-wide meetings and reporting to the EC (short review reports based on templates provided by the MST)

MSCA-ETN SAS NW1E1 2 December 2019

## SAS Project Management (Team)

**Management Support Team:**

- Coordinator: D. Pissoort
- Vice-Coordinator: J. Boydens
- Project Manager: S. Stroobant
- S/T Coordinator: D. Vanoost
- Training Coordinator: J. Guiochet
- Expl. & Dis. Coordinator: A. Ruddle
- TTC: L. Lanneau
- Ombudsperson: T. Dhæse
- External ADVISOR: P. McGuiness

**ESR representative**, appointed after elections from the ESR Researcher Council, as a member of the Supervisory Board is **Luca Sartori** from LAAS-CNRS.

**!! Starting from M12, at least one conference call should be organized for each technical work package to monitor if all scientific and technical aspects of the ETN SAS project remain on track !!**

MSCA-ETN SAS NW1E1 2 December 2019

## SAS Supervisory Board

**Group 1 (1 vote per beneficiary):**

- D. Pissoort (PC, KU Leuven)
- J. Boydens (VC, KU Leuven)
- D. Vanoost (S/T C, KU Leuven)
- One representative from each Project Beneficiary:
  - P. Valcke (KU Leuven)
  - I. Habli (University of York)
  - J. Guiochet (LAAS-CNRS)
  - M. Trapp (Fraunhofer-ESK)
  - P. Munk (Bosch)
  - A. Ruddle (HORIBA-Mira)
  - E. el Amam (RH Marine)

**Group 2 (no formal voting rights):**

- S. Stroobant (PM, KU Leuven)
- One representative from each Partner Organisation:
  - P. Liggesmeyer (TU Kaiserslautern)
  - M. Verhoeven (CNHi)
  - M. Albert (Sick)
  - H. Joshi (Jaguar Land Rover)
  - R. Bridgeman (Lloyd's Register)
  - E. Landre (Equinor)
  - C. Segueineau (Naïo)
  - P. Ringeard (Airbus)
  - J.H. de Jong (Marin)
  - E. O'Carroll (PMT)
- Luca Sartori** as the ESR representative

MSCA-ETN SAS NW1E1 2 December 2019

## SAS Gantt Chart (M1 = Nov 2018)

MSCA-ETN SAS NW1E1 2 December 2019

## Recruited and started ESRs (14/15)

Raul Sima Ferreira (ESR1 (LAAS-CNRS)), Yuan Luo (ESR2 (Fraunhofer)), Jole-Vier Zechin (ESR3 (Lloyd's Register)), Dijana Ugrasovic (ESR4 (Sick)),  
 Arkadiusz Olszowski (ESR5 (Sick)), Luca Vittorio Spina (ESR6 (LAAS-CNRS)), Zaid Taber (ESR7 (University of York)), Ahmad Adbe (ESR8 (Sick)),  
 Hassan Tenzil (ESR9 (Sick)), Fang Yin (ESR10 (University of York)), Vahid Ghasem (ESR11 (University of York)), Tianlin Xiao (ESR12 (RH Marine)),  
 Hana Agha (ESR13 (University of York)), Omid Shari (ESR14 (Sick))

 Hana Agha (ESR13 (University of York)), Omid Shari (ESR14 (Sick))

MSCA-ETN SAS NW1E1 2 December 2019

## Recruitment: Things to Remember!

19

- Duration of appointments: 36 months (additional funding required in case of necessity of 4th year)
- All ESRs must be recruited under an employment contract
- All ESRs must be informed of their rights and obligations
  - All ESRs must receive the ITN information packages
  - All ESRs must receive a copy of the SAS Grant Agreement (including Annex I)

MSCA-ETN SAS NWE1 2 December 2019

## Recruitment: ESR14 Open Position

20

- @Alastair: status regarding the ESR14 Open Position at Horiba-Mira?

MSCA-ETN SAS NWE1 2 December 2019

## SAS Supervisory Committees (1/2)

MSCA-ETN SAS NWE1 2 December 2019

## PCDP

24

- All recruited ESRs developed, in dialogue with their supervisors, a Personal Career Development Plan (PCDP).
- 11 signed PCDPs have been uploaded to the participants portal (D4.2 PCDP Report) on Sept 19 2019.
- Signed PCDPs for ESR7, ESR11 and ESR12 have been sent to the SAS project manager and will be added to the already submitted Deliverable D4.2 PCDP Report after approval by the Project Officer.
- During SAS NWEs, PCDP progress sessions will be organised (ESRs & SAS Training Coordinator).
- Progress reports of the PCDPs to Supervisory Board are a 6 monthly recurring Deliverable.
- Every ESR is enrolled in a PhD except Zaid Tahir > new PCDP for Zaid has been signed and will be submitted

## Training (1)

25

- During the SAS kick-off meeting (M9), the following trainings were given:
  - Open access and open science in scientific research (ESRs)
  - The Supervisor: role & responsibilities (Supervisors)

- The ESRs attended a training on **Ethics and integrity in scientific research** through conf-call on Oct 18 2019

MSCA-ETN SAS NWE1 2 December 2019

## Training (2)

26

- The ESRs are following research-specific trainings and general (obligatory) trainings organized by their doctoral schools, as well as (international) scientific and soft-skill workshops outside the project
- Network-wide trainings scheduled during the NWE1 (M13):
  - S/T Training: Fault tolerance (JC Fabre, LAAS-CNRS)
  - S/T Training: Dependable autonomous robots (J. Guiochet, LAAS-CNRS)
  - Soft-skill Training I: The keys to manage your doctoral project
  - Soft-skill Training II: Anticipate your career path during your PhD

MSCA-ETN SAS NWE1 2 December 2019

15	Orhan	Zhu	KU Leuven	University of York	April - June 2020 (3m)	R. Alexander

MSCA-ETN SAS NWE1 2 December 2019

## First Secondments (2)

28

- Modifications (schedule changes, topic, location) can only be performed after **PREVIOUS APPROVAL** and on request and should be communicated with the PM who reports this to the PO !!
- Check if ESR's nationalities cause issues for the foreseen secondments and if specific procedures need to be followed
- Align the secondment timings with the institutions hosting secondments
- Confirm the modifications to the PM

## First Secondments (3)

29

- After each Secondment a Secondment Report needs to be written by the ESR, and signed by the ESR and the Secondment Hosting Supervisor. Template will be sent out by Stephane.
- IMPORTANT**  
The Actual Secondment Period needs to be submitted at the H2020 Participant Portal (under the Tab 'Researchers') as soon as the Secondment has ended, no not sooner!

MSCA-ETN SAS NWE1 2 December 2019

## Ethics

30

- EC required us to write a dedicated deliverable on ethical issues and potential dual use related to autonomous systems
- Deliverable written through collaboration between KU Leuven and Univ. of York
- Voluntary ethical self-assessment by every ESR
- Ethical Board:
  - KU Leuven: Prof. A. Vedder, Dr. D. Vanoost
  - UoY: Dr. I. Habli

MSCA-ETN SAS NWE1 2 December 2019

**Safer  
Autonomous  
Systems**

31 Communication and Dissemination Outreach

### SAS Project Visual Identity (1/3)

32

**To achieve the best dissemination and communication results, the following visual identifications and tools need to be used:**

**SAS Project Logo**

MSCA-ETN SAS NWE1 2 December 2019

### SAS Project Visual Identity (2/3)

33

**SAS Project Templates** (for PPT, scientific conference presentations, newsletters, project reporting and deliverables)

EU H2020 MSCA-ETN SAS  
KICK-OFF MEETING & NWE  
JULY 2<sup>nd</sup> & 3<sup>rd</sup> 2019

Crowne Plaza, Bruges - BELGIUM

MSCA-ETN SAS NWE1 2 December 2019

### SAS Project Visual Identity (3/3)

34

**EU funding acknowledgement**

This project has received funding from the European Union's  
EU Framework Programme for Research and Innovation  
Horizon 2020 under Grant Agreement No. 812.788

MSCA-ETN SAS NWE1 2 December 2019

### Post

35

Scientific dissemination (peer-review publications) –  
Specific paragraph to be added in acknowledgement  
section – Publication procedure to be followed

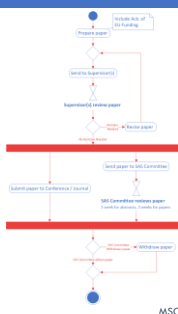

*"The research leading to these results has received funding from the European Union's Horizon 2020 research and innovation programme under the Marie Skłodowska-Curie grant agreement No 812.788 (MSCA-ETN SAS). This publication reflects only the authors' view, exempting the European Union from any liability. Project website: <http://etn-sas.eu/>."*

MSCA-ETN SAS NWE1 2 December 2019

### Paper Presubmission Procedure

36

MSCA-ETN SAS NWE1 2 December 2019

Post Paper Publishing Procedure: OPEN ACCESS

37

- Each beneficiary must ensure OPEN ACCESS (free of charge, online access for any user) to all peer-reviewed scientific publications relating to its results ([Article 29.2 of the Model Grant Agreement](#))
- What to do? Must** as soon as possible and at the latest on publication, deposit a machine-readable electronic copy of the published version or final peer-reviewed manuscript accepted for publication in a repository for scientific publications
- Moreover, the beneficiary must aim to deposit at the same time the research data needed to validate the results presented in the deposited scientific publications

MSCA-ETN SAS NWE1 2 December 2019

Post Paper Publishing Procedure: OPEN ACCESS

38

- Where to deposit?**
  - An acknowledged repository:
    - subject specific (e.g. PubMed, arXiv)
    - institutional (e.g. Lirias)
    - general (Zenodo)
- When to ensure Open Access?**
  - Must ensure open access to the deposited publication — via the repository — at the latest:
    - (i) on publication, if an electronic version is available for free via the publisher, or
    - (ii) within six months of publication (twelve months for publications in the social sciences and humanities) in any other case.

MSCA-ETN SAS NWE1 2 December 2019

Post Paper Publishing Procedure: OPEN ACCESS

39

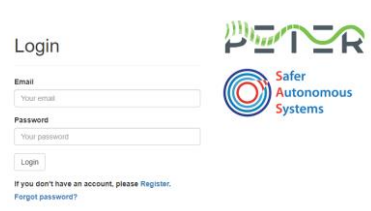

- When to ensure Open Access? (continued...)**
  - Must ensure open access — via the repository — to the bibliographic metadata that identify the deposited publication. The bibliographic metadata must be in a standard format and must include all of the following:
    - the terms “Marie Skłodowska-Curie Actions” ;
    - the name of the action, acronym and grant number;
    - the publication date, and length of embargo period if applicable, and
    - a persistent identifier.

MSCA-ETN SAS NWE1 2 December 2019

SAS Papers Archiving System

40

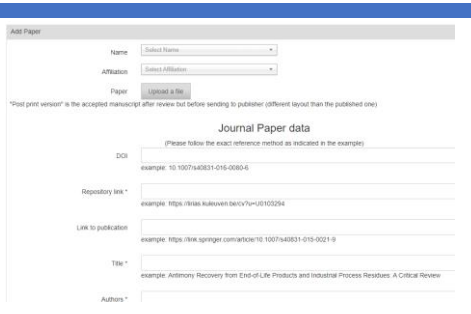

- <http://papers.etsn-sas.eu/user/login/>

MSCA-ETN SAS NWE1 2 December 2019

SAS Papers Archiving System

41

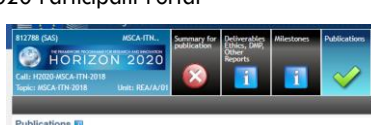

MSCA-ETN SAS NWE1 2 December 2019

SAS Papers Archiving System

42

- Linked with our SAS Website
- Needs in addition to be updated through the H2020 Participant Portal

- Explanation and Training to the ESRs at this NWE

MSCA-ETN SAS NWE1 2 December 2019

## SAS Website

43

- New SAS-website since Sept 1 2019 (temporary website was available between June 27 2018 and Sep 1 2019)

## SAS Blogs, Social Media,...

44

- ESRs are actively involved in communication and dissemination activities.

Facebook	Twitter	LinkedIn	Blogging
Zaid Tahir (York)	Yuan Liao (Fraunhofer)	Joao Vitor Zacchi (Fraunhofer)	Joao Vitor Zacchi (Fraunhofer)
Dejana Ugrenovic (KU Leuven)		Hassan Timzi (KU Leuven)	Ahmad Adeo (Bosch)
			Orian Oheu (KU Leuven)

- So far, the ESRs have written and published 5 blog posts presenting their work for the general public
- They have published several posts on Social Media (on SAS Facebook, Twitter & LinkedIn channels)

MSCA-ETN SAS NWE1 2 December 2019

## SAS Internal Communication

45

### □ PODIO

- A password-protected Intranet > start-up at Toulouse with ESR Training

- Developed Intranet: also storage space for ESRs' PCDPs, RTDEs, Progress Reports, Deliverables, minutes of WP meetings, NWE Reports,...

MSCA-ETN SAS NWE1 2 December 2019

## SAS Video

46

- A SAS Promo Video will be developed and published during the second year of the SAS Project
- This video will explain the project goals, and present the team and the collaborating partners.
- This video will be made in collaboration with Storyrunner. They are very acquainted with developing Marie Curie/Best Practice Award Winning Videos in collaboration with KU Leuven

MSCA-ETN SAS NWE1 2 December 2019

## Project Deliverables

48

### Submitted Deliverables

- D5.1 Project website
- D6.1 Internal/External Communication channels
- D6.5 Consortium Agreement
- D6.6 Supervisory Board of the Network
- D5.5 Data Management Plan
- D6.2 Employment contracts with ESRs
- D4.1 SAS Kick-Off Meeting
- D4.2 15 Personal Career Development Plans (PCDP)
- D5.2 Dissemination, communication and outreach strategy
- D7.1 GEN – Requirement No. 1
- D6.3 Progress report

MSCA-ETN SAS NWE1 2 December 2019

47

Deliverables & Milestones

## Project Deliverables

49

### Upcoming Deliverables

WP	DL	ID	Description	Lead	Status
WP1	DL1	D1	Literature review of safety challenges associated with the use of intelligent conversational bots	Literature review of safety challenges associated...	IP
WP3	DL3	D3A	Progress Report	Progress Report submitted to the REA covering...	NI Leaven
WP3	DL3	D3B	Report on first experiment of real virtual world generation on a robotic simulator	Report on first experiment of the virtual world...	CHS
WP4	DL4	D4	SAC Network Wide Event (Delivered by Co-Thinking Session 1)	SAC Network Wide Event to look at the Del...	IP
WP4	DL4	D4B	SAC Special Session (Workshop 1)	Workshop at SAFEOPP 2019EB	CHS

- Due dates of the S/T Deliverables WP2 and WP3 have been postponed

MSCA-ETN SAS NWE1 2 December 2019

## Project Milestones

50

Number	Name	Lead Institution	Deliverable (ID)	Planned	Actual	Delivery Date (Actual)
1	Internal and external communications	EU Leaven	02 Nov 2018	IP		16 Apr 2019
2	Start-up IIT meeting	EU Leaven	30 Nov 2018	IP		27 Nov 2018
3	SAC Risk Off meeting	EU Leaven	31 May 2019	IP		05 Jul 2019
4	Personal Career Development Plans	IRMA	31 Jul 2019	IP		
17	Review of relevant techniques from functional safety, cyber security, etc	IRMA	31 Oct 2019	IP		
16	Dissemination of vehicle use cases for assistance case (HIVestus focus)	UP	31 Oct 2019	IP		
1	Planned recruitments completed	EU Leaven	31 Oct 2019	IP		
7	1st Annual ISB meeting	EU Leaven	31 Oct 2019	IP		
4	All recruited fellows enrolled in PhD programme	CHS	31 Oct 2019	IP		
20	Decision on which model based system analysis suite are fitted back to us	Bosch	30 Nov 2019	IP		
21	SAC Network Wide Event 2	UP	30 Nov 2019	IP		
18	Decision on which vehicle communication protocols to be considered for	EU Leaven	30 Nov 2019	IP		
25	Project mid-term check at month 13-15	EU Leaven	30 Nov 2019	IP		
18	Different safety assurance frameworks compared on simplified, virtual v	CHS	30 Nov 2019	IP		
21	First experiment of virtual world generation completed for robotic simul	CHS	30 Nov 2019	IP		

- Due dates of the most S/T Milestones have been postponed. Status S/T Milestones 18 and 19?

MSCA-ETN SAS NWE1 2 December 2019

## Deliverables and Milestones

51

- Project Deliverables and Milestones will be furthermore discussed during our Work Package Parallel Sessions

MSCA-ETN SAS NWE1 2 December 2019

**Annex 5**  
**PPT Presentation “WP parallel sessions”**

# Safer Autonomous Systems

SCIENTIFIC WORK PACKAGES 1-3  
PARALLEL SESSIONS

MSCA-ETN SAS Network Wide Event 1  
2 December 2019, LAAS-CNRS, Toulouse - FRANCE

This project has received funding from the European Union's EU Framework Programme for Research and Innovation Horizon 2020 under Grant Agreement No. 812.788

MSCA-ETN SAS NWE1 2 December 2019

## S/T Work Packages Parallel Sessions

3

[MSCA ETN SAS] SCIENTIFIC WORK PACKAGES FOR NWE 1 TOULOUSE			
	WP1	WP2	WP3
WP leader	Mario Trapp (Fraunhofer)	Peter Munk (Bosch)	Rob Alexander (UoY) → replaced by <b>Alastair Ruddle (MIRA)?</b>
ESRs	ESR1: Raul Sena Ferreira (LAAS) ESR2: Yuan Liao (Fraunhofer) ESR3: João Vitor Zacchi (Fraunhofer) ESR4: Dejana Ugrenovic (KU Leuven) ESR5: Aleksandr Ovechkin (KU Leuven)	ESR6: Luca Sartor (LAAS) ESR7: Zaid Taher (UoY) ESR8: Ahmad Adeq (Bosch) ESR9: Hassan Tirmizi (KU Leuven)	ESR10: Feiqi Yan (UoY) ESR11: Vihnu Gautam (UoY) ESR12: Tianqi Mao (RH Marne) ESR13: David Fong (UoY) ESR14: ... ESR15: Orian Dheou (KU Leuven)
Supervisors	Jérémie Guiochet (LAAS) Mario Trapp (Fraunhofer) Jeroen Boydens (KU Leuven)	Melina Wazehyck (LAAS) Rob Alexander (UoY) Peter Munk (Bosch)	Frédéric Héli (UoY) Rob Alexander (UoY) Erik de Arment (RH Marne)
+ Partner Organisation	Sara Vankeerberghen (KU Leuven) Representatives of JLR and CNHi Marcel Vanhooven (CNRS)	Davy Pissoort (KU Leuven) Jérémie Guiochet (Bosch) Representatives of Volvo, Daimler and TUM Indriva Albert (Bosch)	Alastair Ruddle (MIRA) → WP3 leader? + Representatives of JLR, Daimler, Airbus and BENT Patrick Roggeard (Airbus)

MSCA-ETN SAS NWE1 2 December 2019

## S/T Work Packages Parallel Sessions

4

- SAS Scientific Work Packages 1-3
  - Interaction between ESRs, Supervisors and the representatives of the Partner Organisations regarding the specific WP
    - Tasks within each WP
    - Scientific deliverables within each WP
    - Milestones within each WP
    - DATA MANAGEMENT PLAN: applicable for every ESR**
    - Actions within each WP
    - Q&A session to clarify technical aspects and practicalities

MSCA-ETN SAS NWE1 2 December 2019

## S/T Work Packages Parallel Sessions

5

- SAS Scientific/Technical Coordinator
  - Dries Vanoost**

  - Some task of the S/T Coordinator
    - Follow up Scientific and Technical progress
    - Encouragement and support to the ESRs
    - Setup the bi-monthly teleconference meetings
    - Ensure continuous monitoring and communication with all the network Participants
    - ...

MSCA-ETN SAS NWE1 2 December 2019

## WP1: Designing inherently safe autonomous systems

6

<b>ESRs</b> <ul style="list-style-type: none"> <li>ESR1: Raul Sena Ferreira (LAAS)</li> <li>ESR2: Yuan Liao (Fraunhofer)</li> <li>ESR3: João Vitor Zacchi (Fraunhofer)</li> <li>ESR4: Dejana Ugrenovic (KU Leuven)</li> <li>ESR5: Aleksandr Ovechkin (KU Leuven)</li> </ul>	<b>Supervisors</b> <ul style="list-style-type: none"> <li><b>Mario Trapp - Fraunhofer</b></li> <li>Jérémie Guiochet - LAAS</li> <li>Jeroen Boydens - KU Leuven</li> <li>Davy Pissoort – KU Leuven</li> <li>Representatives of JLR and CNHi</li> </ul>
---	---

MSCA-ETN SAS NWE1 2 December 2019

## WP1: Designing inherently safe autonomous systems

7

### ESRs progress

- ESR1 Raul (LAAS): ML verification @ runtime
- ESR2 Yuan (Fraunhofer): Resilient middleware
- ESR3 João (Fraunhofer): Systems of systems
- ESR4 Dejana (KU Leuven): Means / soft design lines
- ESR5 Aleksandr (KU Leuven): HW, Fault Tolerance

MSCA-ETN SAS NWE1 2 December 2019

## WP1: Designing inherently safe autonomous systems

8

### Tasks

No.	Title	ESR
T1.1	Development of a generic framework to monitor and handle safety of autonomous systems during run-time	Raul Sena Ferreira
T1.2	Development of an adaptive platform for resilient autonomous systems based on a MAPE-K cycle	Yuan Liao
T1.3	Dynamic safety handling of autonomous systems-of-systems with run-time safety contracts	João Vitor Zocchi
T1.4	Creating Software Design Guidelines and Testing Specifications for Non-Functional Requirements in Safety-critical Autonomous Systems	Dejana Ugrenovic
T1.5	Making Connectivity Work Reliably in a diverse Range of Environments	Aleksandr Ovechkin

MSCA-ETN SAS NWE1 2 December 2019

## WP1: Designing inherently safe autonomous systems

9

### Deliverables

No.	Title	Lead	Type	Disc. Level	Due Date
D1.1	Report on first version of the language for the expression of safety constraints and synthesis of safety	CNRS (Raul)	Report	public	M 24 (Oct. 20)
D1.2	Publication on initial implementation of run-time safety contracts and according monitoring architectures	Fraunhofer (João)	Report	public	M 27 (Jan. 21)
D1.3	Publication on the effectiveness of EM-diverse redundancy to harden wireless interconnectivity	KU Leuven (Aleksandr)	Report	public	M 31 (May 21)
D1.4	Report on validation of MAPE-K-based architecture and underlying adaptation concepts in an industrial context	Fraunhofer (Yuan)	Report	public	M 42 (Apr. 22)
D1.5	Report on the practical assessment and evaluation of safety-critical software design and testing strategies	KU Leuven (Dejana)	Report	public	M 42 (Apr. 22)

MSCA-ETN SAS NWE1 2 December 2019

## WP1: Designing inherently safe autonomous systems

10

### Milestones

No.	Title	Lead	Means of verific.	Due Date	Delivery Date
MS1.1	Different safety assurance frameworks compared on simplified, virtual autonomous system	LAAS (Raul)	Report available	M 13 (Nov. 19)	Dec-2, 2019
MS1.2	Decision on which wireless communication protocols to be considered for study on EMI-aware design techniques and measures + 5 months, rationale > after the assessment of the ESR at University of York	KU Leuven (Aleksandr)	Overview list available	M 18 (April 20)	M 13 (Nov. 19)
MS1.3	Initial implementation of run-time safety contracts and according monitoring architectures	Fraunhofer (João)	Report available	M 27 (Jan. 21)	
MS1.4	Software design and testing strategies assessed on testcase of autonomous robot	KU Leuven (Dejana)	Report available	M 36 (Oct. 21)	
MS1.5	Peer-reviewed publication on full implementation of MAPE-K based adaptive platform for autonomous systems	Fraunhofer (Yuan)	Paper accepted for publication in peer-reviewed journal	M 40 (Feb. 22)	

## WP1: Designing inherently safe autonomous systems

11

### Data Management Plan: Data Summary

ID#	Responsible	Activity/Task	Data name	Data format & estimated size	Origin of data	Data Dissemination level & plan	Data utility
1	SAAS	Development of generic framework to monitor and handle safety of autonomous systems during run-time	Simulation results	Binary monitor package (zip)	Self-generated from software	Public	Academic and industrial research and engineering purposes & this field
2	Fraunhofer	Development and deployment of resilient autonomous systems based on MAPE-K cycle	Simulation results	Simulation environment	Self-generated from software	Public	Academic and industrial research and engineering purposes & this field
3	Fraunhofer	Development of adaptive platform for resilient autonomous systems	Simulation results	Simulation environment	Self-generated from software	Public	Academic and industrial research and engineering purposes & this field
4	LAAS	Development of safety handling of autonomous systems-of-systems with run-time safety contracts	Source code, simulation data	Self-generated from software	Self-generated from software	Public	Academic and industrial research and engineering purposes & this field
5	KU Leuven	Development of connectivity work reliability in a diverse range of environments	Simulation results, measurement data	Simulation results, measurement data	Self-generated from software	Public	Academic and industrial research and engineering purposes & this field

MSCA-ETN SAS NWE1 2 December 2019

## WP1: Designing inherently safe autonomous systems

12

### Data Management Plan: FAIR Data

**3.1 Making data findable, including provisions of metadata**

WP Task identifier	Data type	Data format	Unique identifier	Data naming conventions	Metadata keywords	Linked to a searchable resource

**3.2 Making data openly accessible**

WP Task identifier	Data type	Data format	Access method	Access location	Access type	Documentation provided

**3.3 Making data interoperable**

WP Task identifier	Data type	Data format	Metadata keywords	Documentation provided	Reuse of data

**3.4 Increase data re-use (through clarifying licenses)**

WP Task identifier	Data type	Data format	License type	Data Quality Assurance	Retention period	Change period

MSCA-ETN SAS NWE1 2 December 2019

## WP1: Designing inherently safe autonomous systems

13

### Actions

- MS 1.1 LAAS-CNRS; MS 1.2 KU Leuven
- LaTeX Template for MS and Deliverables
- Discuss journals with supervisors
- DMP:
  - Public data, available through SAS Website (stored on institute servers)
  - Private data, protected by NDA, local for each partner
  - Metadata on both public and private data on website: be aware of the retention period (EU 5 years!)
  - Regular meetings through SkypeFB, monthly + meeting notes
  - Sharing papers through Dropbox, add supervisors

MSCA-ETN SAS NWE1 2 December 2019

## WP2: Providing evidence for autonomous systems

14

### ESRs

- ESR6: Luca V. Sartori (LAAS)
- ESR7: Zaid Tahir (University of York)
- ESR8: Ahmed Adee (Bosch)
- ESR9: Hassan Tirmizi (KU Leuven)

### Supervisors

- H  l  ne Waeselynck - LAAS
- Rob Alexander - UoY
- Peter Munk - Bosch
- Davy Pissoot- KU Leuven
- Representatives of Naio, SICK and TUK

MSCA-ETN SAS NWE1 2 December 2019

## WP2: Providing evidence for autonomous systems

15

### ESRs progress

- ESR6 Luca (LAAS):
  - software testing in simulation
  - the main novel idea: how to optimise the testing given the limited time one has
- ESR7 Zaid (UoYork):
  - verification and validation of autonomous systems on coverage based testing
- ESR8 Ahmad (Bosch):
  - SOTIF – safety of the intended functionality
  - linking to IEC 61508 for common cause analysis
- ESR9 Hassan (KU Leuven):
  - model-based analysis for robustness against EMI
  - inherent EMI-resilient systems

MSCA-ETN SAS NWE1 2 December 2019

## WP2: Providing evidence for autonomous systems

16

### Tasks

No.	Title	ESR
T2.1	Virtual worlds generation for testing autonomous robots in simulation	Luca Vittorio Sartori
T2.2	Rigorous Design and Evaluation of Situation Coverage Testing for Autonomous Vehicles	Zaid Tahir
T2.3	Model-based System Analysis Techniques to determine propagation paths of functional insufficiencies in software-intensive systems	Ahmad Adee
T2.4	Model-based System Analysis of the Robustness of Autonomous Systems against ElectroMagnetic Interference	Hassan Tirmizi

MSCA-ETN SAS NWE1 2 December 2019

## WP2: Providing evidence for autonomous systems

17

### Deliverables

No.	Title	Lead	Type	Disc. Level	Due Date
D2.1	Report on first experiment of the virtual worlds generation on a robotic simulator <b>+6 months: rationale &gt; late start of ESR and IP issues with the case study &gt; after the secondment</b>	LAAS (Luca)	Report	public	M 19 (May 20) M 13 (Nov. 19)
D2.2	Report on validation of virtual EMI-aware V&V framework on academic testcases	KU Leuven (Hassan)	Report	public	M 31 (May 21)
D2.3	Report discussing the completeness of model-based system analysis when dealing with functional insufficiencies	Bosch (Ahmad)	Report	public	M 31 (May 21)
D2.4	Publication on the situation coverage testing approach, applied to a representative automotive case study	University of York (Zaid)	Report	public	M 40 (Feb. 22)

MSCA-ETN SAS NWE1 2 December 2019

## WP2: Providing evidence for autonomous systems

18

### Milestones

No.	Title	Lead	Means of verific.	Due Date	Delivery Date
MS2.1	Decision on which model-based system analysis suits are fitted best to cope with functional insufficiencies	Bosch (Ahmad)	Overview on (dis)advantages of the model-based system analysis suits available	M 13 (Nov. 19)	Nov 27, 2019
MS2.2	First experiment of virtual world generation completed for robotic simulator <b>+4 months: rationale &gt; late start of ESR and IP issues with the case study</b>	LAAS (Luca)	Report available	M 19 (May 20) M 13 (Nov. 19)	
MS2.3	Statistical V&V framework for EMI analysis completed	KU Leuven (Hassan)	Simulation framework available	M 22 (Aug. 20)	
MS2.4	Complete prototype tooling for situation coverage testing available and working for a small example	University of York (Zaid)	Description of tools available	M 26 (Dec. 20)	

## WP2: Providing evidence for autonomous systems

19

### Data Management Plan: Data Summary

ESR	Investigator	Activity/Task	Data type	Data format & estimated size	Origin of data	Data dissemination level & platform	Data utility
18	Luca	1.1 What world generation for testing autonomous systems involves	Simulation results	Program and execution traces	Both researchers team with external users	Public	Reusable and potential derivatives and long-term access to the data
4	Luca	1.2 What world generation for testing autonomous systems involves	Simulation results	Program and execution traces	Both researchers team with external users	Public	Reusable and potential derivatives and long-term access to the data
7	Vibhu	2.1 Explore design and evaluation of scalable Change Testing for Autonomous Vehicles	Code (simulation files, evaluation data), data files, test result files	Code -- E or code of Public, test and other data files -- Evaluation of the code -- no way to estimate size, possibly variable size	Both researchers team with external users, vehicle manufacturers	Not publicly available, not yet free download with clear restrictions	Allow for expansion to an unbounded, expanding program
8	Haris	2.2 Explore design and evaluation of scalable Change Testing for Autonomous Vehicles	Code (simulation files, evaluation data), data files, test result files	Code -- E or code of Public, test and other data files -- Evaluation of the code -- no way to estimate size, possibly variable size	Both researchers team with external users	To be determined	Open access to the data
9	Orion	2.3 Explore design and evaluation of scalable Change Testing for Autonomous Vehicles	Code (simulation files, evaluation data), data files, test result files	Code -- E or code of Public, test and other data files -- Evaluation of the code -- no way to estimate size, possibly variable size	Both researchers team with external users	To be determined	Open access to the data

20

### Data Management Plan: FAIR Data

**3.1 Making data findable, including provisions of metadata**

ESR Task Deliverable	Data Type	Data Format	Access Identifiers	Data Naming Conventions	Metadata keywords	Linked to a persistent resource

**3.2 Making data openly accessible**

ESR Task Deliverable	Data Type	Data Format	Access provided	Access location	Access type	Documentation provided

**3.3 Making data interoperable**

ESR Task Deliverable	Data Type	Data Format	Metadata keywords	Documentation provided	Reuse of data

**3.4 Increase data re-use (through clarifying licenses)**

ESR Task Deliverable	Data Type	Data Format	License type	Data Quality Assurance	Retention period	Embargo period

MSCA-ETN SAS NWE1 2 December 2019

## WP2: Providing evidence for autonomous systems

21

### Actions

- Open Data Management:
  - How to make it available?
  - Sufficient to do it on a website?
  - How to do this in long-term?
- Which data?
  - Luca:
    - Simulation data?
      - Could code be provided?
      - What
    - Zaid: at least one case that is fully open
    - Ahmed:
      - Similar problem
      - Has his "own" case study
    - Hassan:
      - Simulation framework
      - So far no issues

MSCA-ETN SAS NWE1 2 December 2019

## WP3: Providing Assurance Strategies

22

### ESRs

- ESR10: Fang Yan (University of York)
- ESR11: Vibhu Gautam (University of York)
- ESR12: Tianlei Miao (RH Marine)
- ESR13: Haris Aftab (University of York)
- ESR14: --- (Horiba-MIRA)
- ESR15: Orion Dheu (KU Leuven)

### Supervisors

- Simon Foster - UoY
- Rob Alexander - UoY
- Ehab el Amam - RH Marine
- Ibrahim Habli - UoY
- Alastair Ruddle - Horiba-MIRA
- Peggy Valcke - KU Leuven
- Representatives of LR, Equinor, Airbus and PMT

MSCA-ETN SAS NWE1 2 December 2019

## WP3: Providing Assurance Strategies

23

### ESRs progress

- ESR10 Fang (UoYork): literature review to refine research question, focussed on executable assurance case.
- ESR11 Vibhu (UoYork): investigating identification and management of uncertainties, and how to take account of them in safety cases.
- ESR12 Tianlei (RH Marine): literature review for data fusion, route planning, collision avoidance.
- ESR13 Haris (UoYork): literature review and looking at implications of using consumer electronics in clinical healthcare applications e.g. Chronic diabetes – is it safe?
- ESR14 --- (Horiba-Mira): no ESR currently in place.
- ESR15 Orion (KU Leuven): research proposal, literature review and research questions defended. Comparative analysis of liability issues between Belgium, France, and England and Wales.

MSCA-ETN SAS NWE1 2 December 2019

## WP3: Providing Assurance Strategies

24

### Tasks

No.	Title	ESR
T3.1	From static assurance cases at design-time to executable assurance cases at run-time	Fang Yan
T3.2	Assurance case structures for machine learning in the decision making of highly autonomous systems	Vibhu Gautam
T3.3	Assuring autonomous sailing from A to B while minimizing operational costs	Tianlei Miao
T3.4	Safety assurance for Clinical Conversational Bots	Haris Aftab
T3.5	Dependability Assurance for Vehicle Autonomy	---
T3.6	Between Safety and Liability: Towards a Liability Allocation Framework for Safe Autonomous Systems	Orion Dheu

MSCA-ETN SAS NWE1 2 December 2019

## WP3: Providing Assurance Strategies

25

### Deliverables D3.1 – 3.2 – 3.3

No.	Title	Lead	Type	Diss. Level	Due Date
D3.1	Literature review of safety challenges associated with the use of intelligent conversational bots <b>+8 months: rationale &gt; program logic</b>	University of York (Harris)	Report	public	<b>M 21 (July 20)</b> <b>M 13 (Nov. 19)</b>
D3.2	Report on executable safety assurance case models for autonomous drilling use-case <b>+3 months: rationale &gt; depending on secondment timing</b>	University of York (Fang)	Report	public	<b>M 27 (Jan 21)</b> <b>M 24 (Oct. 20)</b>
D3.3	Documented assurance case patterns for ML in autonomous vehicles <b>+4 months: rationale &gt; depends on secondment timing at Horiba-MIRA for ESR11</b>	University of York (Vibhu)	Report	public	<b>M 34 (Aug. 21)</b> <b>M 30 (Apr. 21)</b>

MSCA-ETN SAS NWE1 2 December 2019

## WP3: Providing Assurance Strategies

26

### Deliverables D3.4 – 3.5 – 3.6

No.	Title	Lead	Type	Diss. Level	Due Date
D3.4	Publication on bottlenecks and inconsistencies in the existing liability regimes when applied to autonomous systems and proposed new criteria for liability allocation <b>+2 months: rationale &gt; program logic</b>	KU Leuven (Orlan)	Report	public	<b>M 36 (Oct. 21)</b> <b>M 34 (Aug. 21)</b>
D3.5	Report on simulation environment comprising algorithms for optimization, situational awareness and collision avoidance <b>+12 months: rationale &gt; recruitment delays (RH Marine)</b>	RH Marine (Tianlei)	Report	public	<b>M 48 (Oct. 22)</b> <b>M 36 (Oct. 21)</b>
D3.6	Report on pilot demonstration of the common framework for developing wider dependability assurance cases <b>+8 months: rationale &gt; recruitment delays (Horiba-MIRA)</b>	Horiba – MIRA (---)	Report	public	<b>M48 (Oct. 22)</b> <b>M 40 (Feb. 22)</b>

MSCA-ETN SAS NWE1 2 December 2019

## WP3: Providing Assurance Strategies

27

### Milestones MS3.1 – 3.2 – 3.3

No.	Title	Lead	Means of verific.	Due Date	Delivery Date
MS3.1	Documented set of vehicle use cases for assurance case structures incorporating machine learning <b>+9 months: rationale &gt; depends on secondment timing at Bosch for ESR11</b>	University of York (Vibhu)	Report available	<b>M 21 (July 20)</b> <b>M 12 (Oct. 19)</b>	
MS3.2	Review of relevant techniques from functional safety, cyber security, dependability, etc. <b>+9 months: rationale &gt; recruitment delays (Horiba-Mira)</b>	Horiba – MIRA (---)	Overview list available	<b>M 21 (July 20)</b> <b>M 12 (Oct. 19)</b>	
MS3.3	Bottlenecks and inconsistencies in the existing liability regimes when applied to autonomous systems identified <b>+10 months: rationale &gt; program logic</b>	KU Leuven (Orlan)	Report available	<b>M 28 (Feb. 21)</b> <b>M 18 (Apr. 20)</b>	

## WP3: Providing Assurance Strategies

28

### Milestones MS3.4 – 3.5 – 3.6

No.	Title	Lead	Means of verific.	Due Date	Delivery Date
MS3.4	Safety concept and architectural strategies for clinical conversational bots <b>+12 months: rationale &gt; program logic</b>	University of York (Harris)	Report available	<b>M 37 (Nov. 21)</b> <b>M 25 (Nov. 20)</b>	
MS3.5	Situational and collision avoidance algorithms finalized <b>+12 months: rationale &gt; recruitment delays (RH Marine)</b>	RH Marine (Tianlei)	Algorithms implemented and tested	<b>M 40 (Feb. 22)</b> <b>M 28 (Feb. 21)</b>	
MS3.6	Run-time Assurance Engine using executable structured assurance case meta-models completed <b>+2 months: rationale &gt; recruitment delays</b>	University of York (Fang)	Assurance engine available	<b>M 33 (July 21)</b> <b>M 31 (May 21)</b>	

## WP3: Providing Assurance Strategies

### Data Management Plan: Data Summary

ID#	Responsible	App/Tools	Data type	Data format & nomenclature	Origin of data	Data dissemination level & platform	Data utility
10	WP3.1	UML, MATLAB, Python	Modeling artifacts, design data	UML, MATLAB, Python	Internal research & development	Publicly accessible with restrictions to view and download	Open access to the field
11	WP3.1	Python, MATLAB, Python	Simulation results, logs	Python, MATLAB, Python	Internal research & development	Publicly accessible with restrictions to view and download	Open access to the field
12	WP3.1	Python, MATLAB, Python	Simulation results, logs	Python, MATLAB, Python	Internal research & development	Publicly accessible with restrictions to view and download	Open access to the field
13	WP3.1	Python, MATLAB, Python	Simulation results, logs	Python, MATLAB, Python	Internal research & development	Publicly accessible with restrictions to view and download	Open access to the field
14	WP3.1	Python, MATLAB, Python	Simulation results, logs	Python, MATLAB, Python	Internal research & development	Publicly accessible with restrictions to view and download	Open access to the field
15	WP3.1	Python, MATLAB, Python	Simulation results, logs	Python, MATLAB, Python	Internal research & development	Publicly accessible with restrictions to view and download	Open access to the field

MSCA-ETN SAS NWE1 2 December 2019

## WP3: Providing Assurance Strategies

30

### Data Management Plan: FAIR Data

**3.1 Making data findable, including provisions of metadata**

WP Task deliverable	Data type	Data format	Unique identifier	Data naming conventions	Metadata keywords	Linked to a searchable resource

**3.2 Making data openly accessible**

WP Task deliverable	Data type	Data format	Access method	Access location	Normal type	Documentation provided

**3.3 Making data interoperable**

WP Task deliverable	Data type	Data format	Metadata keywords	Documentation provided	Reuse of data

**3.4 Increase data re-use (through clarifying licenses)**

WP Task deliverable	Data type	Data format	License type	Data Quality Assurance	Retention period	Storage period

MSCA-ETN SAS NWE1 2 December 2019

## WP3: Providing Assurance Strategies

31

### Actions

#### □ Data Management Plan:

- What data are we talking about? Data around safety is more easier...
- Synthetic data
- Making data opensource: use some open use case
- Anomaly data will be difficult

#### □ ESRs

- ESR10 (Fang): possible problem IP regarding the secondment
- ESR11 (Vibhu): open source image is the only liberty (game engine)
- ESR12 (Tianlei): simulation result visualization which can be public
- ESR13 (Haris): clinical > be aware of personal information
- ESR14 (---): get real-world data but not able to retribute it, make syntactic data
- ESR15 (Orlan): no issues

MSCA-ETN SAS NWE1 2 December 2019

# Safer Autonomous Systems

SUPERVISORY BOARD MEETING  
2 DECEMBER 2019, TOULOUSE

MSCA ETN SAS Network Wide Event 1  
Toulouse, 2-5 DECEMBER 2019

2

This project has received funding from the European Union's EU Framework Programme for Research and Innovation Horizon 2020 under Grant Agreement No. 812.788

MSCA-ETN SAS NWE1 2 December 2019

## Agenda

- ESR14 Position (Horiba-Mira): status
- ESR7 Zaid Tahir: no PhD enrollment
- Secondments: any known issues?
- Paper author list + Paper Presubmission Procedure
- ESRs Payments
- Ethics Deliverable
- NWE 2 and 3
- Video
- AoB

MSCA-ETN SAS NWE1 2 December 2019

## Paper Presubmission Procedure

MSCA-ETN SAS NWE1 2 December 2019

## Next NWEs 2 and 3

- **SAS NWE 2 in York (UK) @ Dept. of Computer Science: 4 days + 1 day Co-Thinking Session**
  - Proposed Period: **April/May 2020? -> June 2020?**
  - Final Dates: **June 29 to July 3 2020**  
On Wednesday July 1<sup>st</sup> and Thursday July 2<sup>nd</sup> 1,5 day for the plenary meetings
- **SAS NWE 3 in Munich (GE) @ Fraunhofer: 4 days**
  - Proposed Period: **Okt/Nov 2020?**
  - Final Dates: **November 17-20 2020**

*Annex 7*

Report ESR Researcher Council NWE I Dec 2, 2019

## REPORT ESR Researcher Council - MSCA ETN SAS NWE1 December 2<sup>nd</sup> 2019, LAAS-CNRS, Toulouse (FR)

**Date:** Monday December 2<sup>nd</sup>, 2019 12:00-13:00

**Present:** Raul Ferreira, Yuan Liao, João Zacchi, Dejana Ugrenovic, Aleksandr Ovechkin (president), Luca Sartori, Zaid Tahir, Ahmad Adeeb (secretary), Hassan Tirmizi, Fang Yan, Vibhu Gautam, Tianlei Miao, Orian Dheu

**Excused:** Haris Aftab

---

1. Which good practices did you develop in your own research, which might be relevant to other ESRs? What can still be improved?

- a) Make notes and comments of your actions especially when you write code just to remember and re-do if needed smth in future.
- b) Mind map programs:
  - Docear;
  - Mendley;
  - Zotero.

2. What do you believe has been your personal input into achieving the overall goal of the project up until now?

- a) WhatsApp group;
- b) Work package group 1 meetings;
- c) Dejana's organizational skills.

3. Which activities regarding social media (e.g. Blogging, Twitter, LinkedIn and Facebook) and public engagement did you find successful? How can we further improve this?

Increase the frequency of posts for blogs (2x per year per each ESR, at least 2x per month).

4. Conference, journal and workshop list

A running list containing all the upcoming relevant conference, journal, workshop and summer school should be made (google sheets for example) so as to help ESRs find the relevant opportunities.

**Annex 8**  
**PPT Presentation “SAS Mid Term Check – Project Officer”**

  
**H2020  
Marie Skłodowska-Curie  
Actions  
Mid-term check**

Nina Poumpalova  
 812788 - SAS  
 Toulouse – 2-3 Dec. 2019

  
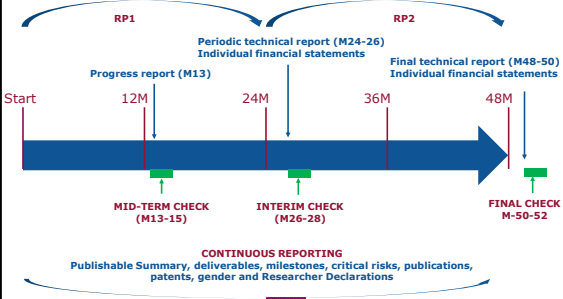

**Mid-Term check**

- Reporting obligations and REA monitoring
- Rights and obligations of fellows and beneficiaries
- Clarification of the eligibility rules
- Cost categories
- Clarification on common misunderstandings
- Where can I get help?

  
**Project timeline**

**CONTINUOUS REPORTING**  
 Publishable Summary, deliverables, milestones, critical risks, publications, patents, gender and Researcher Declarations

  
**Role of the Coordinator**

- Article 41.2b of the GA
  - Monitor that the action is implemented properly
  - Act as intermediary for all communication between consortium and the REA
  - Request and review any document or information required by the REA
  - Submit the deliverables and reports to the REA
  - Ensure that all payments to other beneficiaries are made without unjustified delay
  - Inform the REA of the amounts paid to each beneficiary

**Coordinator cannot delegate these tasks to any other beneficiary or subcontract them to a third party**

  
**Role of the Beneficiaries**

- Article 41.2a of the GA
  - Keep the PP Beneficiary Register up to date
  - Inform the coordinator of events likely to affect the implementation of the project
  - Submit to the coordinator in good time
    - Individual financial statements
    - Data needed to draw up the technical reports
    - Ethics committee opinions/notifications/authorizations for activities raising ethics issues
    - Any other document required by the REA

**Beneficiaries are jointly liable for the technical implementation of the action.  
Beneficiaries have individual responsibility for their own financial statement.**

  
**Obligations of beneficiaries**

- Art. 32.1: Obligations towards recruited researchers
  - **inform the researchers about:**
    - the description, conditions, location and the timetable for the implementation of the research training activities under the action and the name of the supervisor
    - ensure that the researchers do not receive, for activities carried out in the frame of the action, other incomes than those received from the beneficiaries
    - ensure that the researchers do not have to bear any costs for the implementation of the action as described in Annex 1
    - host the researchers at their premises
    - provide training and the necessary means for implementing the action
    - ensure that the researchers are adequately supervised
    - ensure that a career development plan is established and support its implementation
    - ensure an appropriate exposure to the non-academic sector

Recruited researchers must NOT be requested to pay visa-related fees or tuition fees for their research training and/or PhD degree programme (e.g. student registration, access to student services (e.g. library, computing), teaching, supervision, examination and graduation) neither from their own funds, nor from the researcher unit cost.

  
European Commission

## Obligations of beneficiaries

- **Art. 32.1: Obligations towards recruited researchers**
- ensure that the researchers enjoy at the place of the implementation at least the **same standards and working conditions** as those applicable to local researchers holding a similar position
- ensure that the employment contract specifies:
  - the **monthly support** for the researcher under this Agreement
  - the obligation of the researcher to work **exclusively** for the action
  - the arrangements related to the **IP rights** between the beneficiary and the researcher during implementation of the action and afterwards
  - the obligation of the researcher to ensure the **visibility of EU funding** in communications or publications and in applications for the protection of results
- assist the researchers in the **administrative procedures related to their recruitment**;
- **ECB's official website for the exchange rate**  
<https://www.ecb.europa.eu/euro/exchange/html/index.en.html>

  
European Commission

## Mid-Term check

- **Fellow's rights:**
  - **Administration:** Researcher's Declarations, Grant Agreement provisions awareness, working conditions (employment contracts, eligible allowances, visa issues, administrative support), tuition fees
  - Career development plan
  - Supervision and integration: quality of the supervision, integration within the research team/the network/ the host institution/the country
  - **Planned training activities, individual research projects, secondments, PhD courses, planned courses, workshops/conferences, language courses and complementary skills training.**
  - EID: ESR enrolled in PhD and hosting arrangements should be checked to ensure the 50% inter-sectoral/international secondments)
  - EJD: PhD requirements at each hosting institution, enrolment and recognition of double/joint doctoral degree and hosting arrangements should be checked.
- **What's next?**
  - Implement any required corrective action
  - Prepare for the next check

  
European Commission

Project Officers monitor project. External experts may assist.

## Reporting obligations and REA monitoring

- ✓ Covers technical, legal & administrative aspects
- ✓ **Technical implementation:** project needs to be implemented as described in Annex 1 (Description of the action – DoA) of the Grant Agreement (GA),
- ✓ **Legal & administrative implementation:** the project's activities need to comply with the obligations under the GA.
- ✓ In order for the Agency to verify that the project is implemented properly, the beneficiaries must submit any information requested, and in particular the deliverables and reports specified in the GA.

  
European Commission

## Reporting obligations and REA monitoring

- ✓ **Continuous reporting (CC):** as soon as the GA is signed, the 'continuous reporting' module is available.  
Allows consortium to continuously update publishable summary, deliverables, milestones, etc. and allows the REA to monitor project.
- ✓ **Periodic reporting:** at the end of each reporting period, the coordinator has 60 days to submit a period/final report (Art. 20 of the GA).

An **INTERIM/FINAL CHECK** is organized remotely to assess the progress of each reporting period (can be carried out on site if necessary)

Electronic submission via the Participant Portal; electronic signature

  
European Commission

## Reporting obligations and REA monitoring

- **Art. 19.1:**
  - **The coordinator must:**
    - establish a Supervisory Board
    - submit any deliverables identified in Annex 1
    - submit a 'researcher's declaration' within 20 days after the recruitment of each researcher
    - submit a progress report
    - organize a mid-term meeting

Researchers declarations (RDs) contain:

- Personal data (name, date of birth, nationality, gender, family charges, email of researcher, etc.)
- Data related to the project allowances: start date and end date of recruitment/secondment, hosting institution, etc.
- RD is a basis for IFS (Individual financial Statement) and thus need to be regularly updated (particularly before submission of periodic report)

  
European Commission

## Costs categories summary

1 unit = 1 month of eligible ESR

	Researcher			Institution	
Living allowance*	Mobility allowance	Family allowance	Research, training and networking costs	Management and indirect costs	
3,270	600	500	1 800	1 200	

\* Multiplied by the country coefficient

Automatically filled in from Researcher's Declaration(s)

## Individual financial statements

Automatically filled in based on unit costs

Automatically filled in from Researcher's Declaration(s)

MOBIL ANNEKS FOR FORM MNCJN - MULTI  
STATEMENT FOR BENEFICIARY (used FOR REPORTING PERIOD: reporting period)

Higher costs per benefit category

Beneficiary	Benefit category	2018		2019		2020		Total
		Value	Unit cost	Value	Unit cost	Value	Unit cost	

Research Executive Agency

## Clarification on common misunderstandings

**Secondment costs:**

- additional costs arising from each secondment of 6 months or less which require mobility from the place of residence (e.g. travel and accommodation costs) to be paid from institutional costs (B)

**Open access peer-reviewed publications:**

- Each beneficiary must ensure open access (free of charge, online access for any user) to all peer-reviewed scientific publications relating to its results (art. 29.2).

In particular, it must:

- (a) as soon as possible and at the latest on publication, deposit a machine-readable electronic copy of the published version or final peer-reviewed manuscript accepted for publication in a repository for scientific publications;
- (b) ensure open access to the deposited publication — via the repository — at the latest within 6 months of publication

Research Executive Agency

## Interim check (Art. 20.3 of the GA)

- Remote assessment unless otherwise agreed with PO
  - Necessary to submit within 60 days of the end of the 1<sup>st</sup> reporting period:
    - Periodic technical report
    - Periodic financial report (individual financial statement per each beneficiary)

Periodic technical report has 2 parts:

- Part A (publishable summary, deliverables, milestones, etc., answer to H2020 KPIs) – retrieved from CC
- Part B (explanation work carried out, overview of progress, update on PUDF, explanation on deviations from DoA) – uploaded as pdf in Participant portal

Electronic submission via the Participant Portal, electronic signature

Research Executive Agency

6 SAS Scientific Objective

## Autonomous Systems A Few Application Areas

7

Self-Driving Cars

AUTONOMOUS DRONES

Smart Farming

Autonomous ships  
The next step

Care Robots

Collaborative Robots

## Autonomous Systems: Question!

8

### Are you ready yet, to take a seat on an autonomously controlled airplane?

**Would you get on a pilotless plane?**

A survey by financial services firm UBS suggests that pilotless aircraft not be too popular, however, with 54% of the 8,000 people questioned saying they would be unlikely to take a pilotless flight. The older age groups were the most resistant with more than half of people aged 45 and above shunning the idea.

Only 17% of those questioned said they would board such a plane, with more young people willing to give them a try and the 25 to 34 age group the most likely to step on board.

One of the biggest debating points around the introduction of the planes is safety

## Uber Accident (March 18, 2018)

9

**Uber halts self-driving car tests after death**

**AFTER UBER'S FATAL CRASH, WILL DRIVERLESS CARS EVER BECOME A REALITY?**

**Arizona halts Uber self-driving car tests after fatal crash**

Fatal Uber crash shows we are poor at supervising driverless cars

The idea that automation improves safety by compensating for human error is false

## Autonomous Systems: Trust Matters!

10

- If deployed tomorrow, existing self-driving cars could have many few accidents than those driven by humans
- But, that doesn't mean that people are ready to hand-over the steering wheel!
- First accidents with self-driving cars are headline news all over the world!
- Autonomous vehicles, and indeed all autonomous systems, need to be made safe enough so that people trust them!
- SAS S/T Objective = identify ways that we can establish people's trust in autonomous systems by making these systems demonstrably safer

## SAS WP Overview

11

WP No.	WP Title
1	Designing inherently safe autonomous systems
2	Providing evidence for autonomous systems
3	Providing assurance strategies
4	Training
5	Exploitation, Dissemination and Communication
6	Management

"The destination, therefore, is clear; the route, however, is a difficult one. The Safer Autonomous Systems ITN project is designed to get us to our destination, safely."

# Safer Autonomous Systems

12 SAS General S/T Progress

## General S/T Progress

13

- Project has started successfully
- 14 of the 15 ESRs have started their (PhD) research after an initial period of introduction and literature review at their main host
- First secondments going on at the moment

## General S/T Progress WP1

14

**Objective of WP1: Designing inherently safe autonomous systems**  
Methodologies and techniques to integrate safety directly into the architecture/design of the autonomous system.

WP1: Providing evidence for autonomous systems					
ESR	Name	Supervisor	Topic of the research	Main S/T activities and/or results and methodology used	Personal training activities
1	Raul Ferraz	LAAS	1.1 Development of a generic framework to monitor and handle safety of autonomous systems during run-time	*Literature review, writing articles for conferences in AI and safety; *Produced a huge map/body of knowledge regarding Dependability and security for A/T; *Preparing article to be submitted to the AI Safety conference	*IP as leverage for creating a company *Visa for renovation
2	Yuan Luo	Fraunhofer	1.2 Development of an adaptive platform for resilient autonomous systems based on a MAPP-R cycle	*Research topic and goal has been confirmed and will be focused on test fields, which refer to adaptation, engineering and safety engineering	—
3	Isaac Zachit	Fraunhofer	1.3 Dynamic safety handling of autonomous systems of systems with run-time safety contracts	*Literature review regarding the modeling and safety assurance of collective systems, including assurance plans, safety contracts, model@runtime and collision avoidance systems	—
4	Dejana Ignjatovic	RI Leuven	1.4 Creating Software Design Guidelines and Testing Specifications for Non-Functional Requirements in Safer, critical Autonomous Systems	*Literature review regarding methodologies for fault-tolerant software; *Overview of machine learning algorithms for anomaly detection in time-series data; *Building use case and obtaining and preprocessing data for their case	*Managing your PhD; *Research Data Management for PhD students; *Seminar on research integrity; *IP Protection and Valorization; *AI applied in industry: deep learning and anomaly detection
5	Aleksandr Ouechkin	RI Leuven	1.5 Making Connectivity Work Reliable in a diverse Range of Environments	*Two scripts written in Python for each piece of equipment used in experiments to perform the experimentation room characterisation; *Performed a series of tests calibrating the equipment	*Managing your PhD

## General S/T Progress WP2

15

**Objective of WP2: Providing evidence for autonomous systems**  
Effective model-based system analysis techniques to provide evidence that the behaviour of an autonomous system remains acceptably safe under all conditions.

WP2: Providing evidence for autonomous systems					
ESR	Name	Supervisor	Topic of the research	Main S/T activities and/or results and methodology used	Personal training activities
6	Luca Sartori	LAAS	2.1 Virtual worlds generation for testing autonomous robots in simulation	*Algorithmic research; *Learning to code in Python and C++; *Operational generation models and GUI diagnosis; *Literature review on safety assurance of autonomous vehicles;	*Entrepreneurship for startups and Intellectual Property issues; *Article writing (Earth Latent)
7	Zaid Taha	UoYork	2.2 Rigorous Design and Evaluation of Situation Coverage Testing for Autonomous Vehicles	*Literature review on safety assurance of autonomous vehicles; *In the progress of writing a journal paper regarding the safety assurance of autonomous vehicles;	—
8	Abdoul Adhe	Bosch	2.3 Model-based System Analysis Techniques to determine propagation paths of functional insufficiencies in software-intensive systems	*Systematic literature review on Safety of the intended Functionality (SOTIF) *Formulation on how SOTIF can be modelled through uncertainty modelling techniques; *Paperwork proposal so that it can be presented and discussed within the ROSA community	*SCRUM hands-on training
9	Hassan Tirmizi	RI Leuven	2.4 Model-based System Analysis of the Robustness of Autonomous Systems against ElectroMagnetic Interference	*Expanding an in-house built simulation framework for spectral EM analysis; *Testing the effectiveness of EM diversity when subjected to more real life disturbances (multiple frequencies)	*Seminar on research integrity; *Managing your PhD; *IP Protection and Valorization

## General S/T Progress WP3

16

**Objective of WP3: Providing assurance strategies**  
To develop novel safety assurance strategies which combine the architectural/design measures with the evidence in order to allow us to have trust in the autonomous system.

WP3: Providing assurance strategies					
ESR	Name	Supervisor	Topic of the research	Main S/T activities and/or results and methodology used	Personal training activities
10	Fang Tian	UoYork	3.1 From static assurance cases at design-time to measurable assurance cases at run-time	*Literature review on the subjects of Assurance cases, Runtime, and automation of the assurance case process	*Academic writing skills; *Functional programming; *Deductive reasoning in the domain of task
11	Mihai Gheorghe	UoYork	3.2 Assurance case structures for machine learning in the decision making of highly autonomous systems	*Literature review of available technological advancement in the area of machine learning focusing on safety and decision making	*Course on 'Foundations of System Safety Engineering' at the University of York
12	Timotei Gheorghe	RI Marine	3.3 Assuring autonomous sailing from A to B while minimizing operational costs	*Recently started on October 1 <sup>st</sup> , only preliminary progress report	—
13	Hani Aftab	UoYork	3.4 Safety assurance for Clinical Conversational Bots	*Studied research area in abstract way to understand the risks of healthcare, AI, and safety in chatbot applications; *Performed a systematic literature review on clinical chatbot applications in healthcare domain	*Course on 'Foundations of System Safety Engineering' at the University of York
14	—	—	3.5 Dependability Assurance for Vehicle Autonomy	—	—
15	Orian Dhou	RI Leuven	3.6 Between-Safety and Liability: Towards a Liability Allocation Framework for Safe Autonomous Systems	*Researching, selecting and reading relevant scientific literature regarding the liability objective; *Construct a research document library regarding the liability objective, using the Science tool	*Seminar on research integrity; *PhD class on tips and tricks on publication strategy; *IP Protection and Valorization; *Attended 1 Doctoral seminar

17

Training

## Training (1)

18

- During the kick-off meeting (M9), the following trainings were given:
  - Open access and open science in scientific research (ESRs)
  - The Supervisor: role & responsibilities (Supervisors)

- The ESRs attended a training on **Ethics and integrity in scientific research** through conf-call on Oct 18 2019

## Training (2)

19

- The ESRs are following research-specific trainings and general (obligatory) trainings organized by their doctoral schools, as well as (international) scientific and soft-skill workshops outside the project
- Network-wide trainings scheduled during the NWE1 (M13):
  - S/T Training: Fault tolerance (JC Fabre, LAAS-CNRS)
  - S/T Training: Dependable autonomous robots (J. Guiochet, LAAS-CNRS)
  - Soft-skill Training I: The keys to manage your doctoral project
  - Soft-skill Training II: Anticipate your career path during your PhD
- 2 secondments ongoing (ESR4, ESR8) / practical planning for first secondments of other ESRs ongoing

20

## Recruitment

## Recruitment (1)

21

- The 15 PhD positions (Early Stage Researchers) were opened between June 29, 2018 and August 31, 2018.
- The open positions were widely advertised on several channels (Euraxess, SAS project website, Social Media incl. LinkedIn, ResearchGate, job sites).
- >150 candidates (44 different nationalities) applied using the online application tool on the [etm-sas.eu](http://etm-sas.eu) website.
- A list of 27 preselected candidates was officially announced on October 1, 2018
- Preselected candidates were invited to the centralized Recruitment Event in Bruges (Nov 27, 2018)
- 6 preselected candidates resigned before the recruiting event. 14 out of the 21 remaining candidates were present in person at the recruiting event and 3 of them (who were not able to participate due to VISA proceedings delay) used the video presentation option

## Recruitment (2)

22

The slide displays recruitment information for 15 PhD positions in the EU Horizon 2020 Marie Skłodowska-Curie Project. It includes a recruitment notice, a screenshot of the Euraxess website, a social media post, and a bar chart showing the number of candidates by country.

Country	1st Choice	2nd Choice	3rd Choice
USA	10	5	2
UK	8	4	1
France	7	3	1
Germany	6	2	1
Spain	5	2	1
Italy	4	2	1
China	3	1	1
India	2	1	1
Japan	2	1	1
South Korea	2	1	1
Canada	1	1	1
Other	1	1	1

## Recruitment (3)

23

- During 3 parallel sessions, the 14 candidates presented themselves, their background and their motivation.
- Video interviews of candidates following alternative procedure were shown
- A time slot of 45 minutes has been allocated for each candidate for the presentation and for the jury members to interview the candidates. Then each Jury Group had a 45 minutes deliberation meeting to assess the suitability of each candidate for the ESR position they applied for.
- Another one-hour plenary deliberation meeting took place with all Jury Groups members and the management team.

## Recruitment (4)

24

- A final decision on the selection of 10 candidates was agreed during the final deliberation meeting on Nov 27, 2018
- The official list of ESRs proposed for recruitment was officially communicated by email on Nov 29, 2018
- Decision for the 4 ESR positions with the University of York as main host had to be postponed to mid December 2018 in order to also comply with the internal University of York recruitment policy
  - Additional advertisement for York's 4 ESR positions on its own website, Euraxess and via jobs.ac.uk
- On Dec 10, 2018 the decision on ESR7, ESR10, ESR11 and ESR13 was made

## Recruitment (5)

25

- Two of the original selected SAS candidates (ESR4 and ESR12) were not withheld for the specific SAS positions because they didn't fulfill the rules set forward by the KU Leuven Arenberg Doctoral School to start with their PhD. The two candidates were replaced by two other suitable candidates after conducting a similar recruitment process
- The ESR5 Position remained open after the Recruitment Event. A suitable candidate was found following the same organization and structure as the interviews on the recruitment event itself
- The selected candidate for the ESR14 Position withdrew his application due to private reasons (September 12, 2019). Therefore, on October 10, 2019 the SAS ESR14 position has been re-opened on Euraxess, Horiba-Mira jobsite, SAS project website and disseminated through SAS social media (LinkedIn and Twitter)

## Recruitment (6)

26

[MSCA ETN SAS] EARLY STAGE RESEARCHERS						
ESR	First Name	Last Name	Gender	Country of origin	Affiliation	Start date '19
1	Rafael	Ferreira	Male	Brazil	LAAS-CNRS	Mar/19

ESR13	H. Ahbab (Pakistan) (m)	UoY	I. Habi (UoY)	J. Guiochet (LAAS), E. O'Carroll (PWT)
ESR14	---	Horiba-Mira	M. Nicholson (UoY), J. McDermid (UoY), A. Ruddle (Horiba-Mira)	D. Pissort (KU Leuven)
ESR15	O. Dheu (France) (m)	KU Leuven	P. Vaicke (KU Leuven)	P. Ringgaard (Airbus), D. Pissort (KU Leuven)

## PCDP

31

- All recruited ESRs developed, in dialogue with their supervisors, a Personal Career Development Plan (PCDP).
- 11 signed PCDPs have been uploaded to the participants portal (D4.2 PCDP Report) on Sept 19 2019.
- Signed PCDPs for ESR7, ESR11 and ESR12 have been sent to the SAS project manager and will be added the already submitted Deliverable D4.2 PCDP Report after approval by the Project Officer.
- During SAS NWEs, PCDP progress sessions will be organised (ESRs & SAS Training Coordinator).

32

## Project Management

## Project Management (1)

33

## Project Management (2)

34

- In April 2019, S. Stroobant started as a dedicated project manager (for ETN SAS and ETN PETER)
- The general coordinator, vice-coordinator, S/T coordinator and project manager meet at least monthly to discuss possible urgent matters.
- The full Management Support Team meets physically at least every six months, typically at the SAS Network Wide Events
- In these team meetings, a full overview of the project is discussed and attention is given to the S/T, training, secondments, milestones, deliverables, upcoming Network-Wide Events

## Project Management (3)

35

- NWEs every 6 months. Typical agenda for NWEs:

Day	Event	Who is involved
1	pm: Presentations ESRs 1-7	ESRs, Supervisors, Beneficiaries, Partner Organizations, plus members of the Management Team (MT)
1	pm: Presentations ESRs 8-15	ESRs, Supervisors, Beneficiaries, Partner Organizations, plus members of the Management Team (MT)
1	pm: WP leaders meeting / ESR Researchers Council <sup>17</sup> meeting	WP Leaders, Coordinator, MT / 15 ESRs
1	pm: Supervisory Board (SB) meeting	SB members
2	pm: Training meeting to discuss matters arising from training and secondments	Training Coordinator, WP Leaders, Coordinator, Project Manager
pm:	Laboratory/industry visits for ESRs	All ESRs + Supervisors (optional)
pm:	Official Project Dinner + Guest Lecture by invited expert	All
3-4	pm: S/T training and Soft-skills training	All ESRs + Supervisors (optional)
5	am/pm: SAS Co-Thinking Sessions (only for NWEs 2, 4 and 7)	All ESRs + Supervisors (optional) + representatives from industry

<sup>17</sup> Management Team includes Project Manager, S/T Coordinator, and Exploitation & Dissemination Coordinator (see Section 3.2.1. and Figure 4)

<sup>18</sup> ESR Researchers Council (see Section 3.2.1. and Figure 4), includes the 15 ESRs and meets during the workshops at the same time as the WP Leaders meeting. The ESRs discuss issues relevant to them and communicate with the SB during the meetings in the afternoon through an annually elected representative.

- In between NWEs:
  - conference calls for WP1-3 (S/T coordinator, WP leaders, supervisors, ESRs, Project Manager)

## Project Management (4)

36

### Software tools:

- SAS Management team and SAS ESRs will be using **PODIO** Intranet as a collaborative working tool
- Paper Archiving System is set and will be used by ESRs for scientific paper management and reporting; the tool is integrated with the project website (Communication section)

- Research data files are being stored on the servers of each institution, in accordance with the Data Management Plan.

## Supervisory Board

37

- The Supervisory Board (SB) established by the SAS network is the ultimate decision-making body of the consortium.
- The SB evaluates the scientific and technical progress of the research and training activities and to refine the plans accordingly.

**Group 1 (1 vote per beneficiary):**

- D. Pissort (PC, KU Leuven)
- J. Baydens (VC, KU Leuven)
- D. Vancost (S/T/C, KU Leuven)
- One representative from each Project Beneficiary:
  - P. Velcke (KU Leuven)
  - I. Habi (University of York)
  - J. Guiochet (LAAS-CNRS)
  - M. Trapp (Fraunhofer-ESK)
  - P. Auk (Bosch)
  - A. Ruddle (HORBA-Mira)
  - E. el Amam (RH Marine)

**Group 2 (no formal voting rights):**

- S. Stroobant (PM, KU Leuven)
- One representative from each Partner Organisation:
  - P. Liggesmeyer (TU Kaiserslautern)
  - P. Sraoufati (CNRS)
  - M. Albert (Sick)
  - H. Joshi (Jaguar Land Rover)
  - R. Bridgeman (Lloyd's Register)
  - E. Landre (Equinor)
  - G. Severac (Riscio)
  - P. Ringgaard (Airbus)
  - J.H. de Jong (Marin)
  - E. O'Carroll (PMT)
- **Luca Sartori** as the ESR representative

38

## Communication and Dissemination

## SAS Website

39

- New SAS-website since Sept 1 2019 (temporary website was available between June 27 2018 and Sep 1 2019)

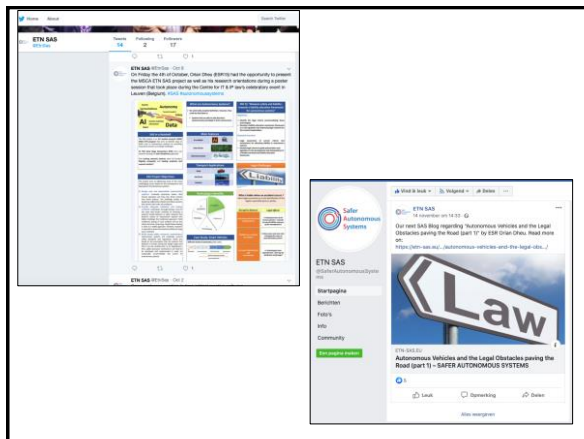

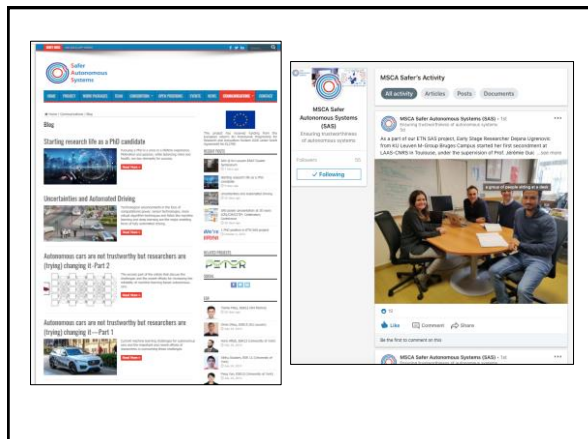

## SAS Blogs, Social Media,...

40

- ESRs are actively involved in communication and dissemination activities.

Facebook	Twitter	LinkedIn	Blogging
Zaid Tahir (York)	Yuan Liao (Fraunhofer)	Joao Vilor Zacchi (Fraunhofer)	Joao Vilor Zacchi (Fraunhofer)
Dejana Ugrenovic (KU Leuven)		Hassan Timizi (KU Leuven)	Ahmad Adeeb (Bosch)
			Orian Dheu (KU Leuven)

- So far, the ESRs have written and published 5 blog posts presenting their work for the general public
- They have published several posts on Social Media (on SAS Facebook, Twitter & LinkedIn channels)

## SAS Video

- A SAS Promo Video will be developed and published during the second year of the SAS Project
- This video will explain the project goals, and present the team and the collaborating partners.
- This video will be made in collaboration with Storyrunner. They are very acquainted with developing Marie Curie/Best Practice Award Winning Videos in collaboration with KU Leuven

## SAS ESRs at Conferences

## 45 Deliverables & Milestones

## SAS Gantt Chart (M1 = Nov 2018)

## Researcher Declarations

All 14 Researcher Declarations have been submitted

# Safer Autonomous Systems

MY NAME (MY AFFILIATION)

MSCA-ETN SAS Network Wide Event I  
December 2-3 2019, LAAS-CNRS TOULOUSE - FRANCE

## Instructions for your ESR presentation at Toulouse

- ▣ **1: slide** – background – (where do you come from, studies)
- ▣ **2 – 4: slides** on your research – objective – methodology used – results (so far)
- ▣ **5: slide(s)** regarding your training (if you have followed the same wide training events, they do not have to repeat it as it will be already presented by the Coordinator earlier on, but rather trainings you attended which were tailor made for your specific research)
- ▣ **6: slide(s)** regarding dissemination / communication / outreach activities / conference attendance (this applies also as for the training) / secondments (if applicable)
- ▣ **7: your expectations with regard to your future career as MSCA fellow**
- ▣ **You should speak for about 5-7 min and have a minute for questions.**

MSCA-ETN SAS NWE I ESR X December 2-3 2019

## Bio data + professional background

- ◊ **One Slide**

MSCA-ETN SAS NWE I ESR X December 2-3 2019

## My ESR(x) project (title)

- ◊ Describe your research – objective – methodology – results (so far)

MSCA-ETN SAS NWE I ESR X December 2-3 2019

## Training

- ◊ Describe trainings you attended which were tailor made for your specific research
- ◊ No need to mention here the training at SAS Kick-Off and the training regarding Ethics and Integrity

MSCA-ETN SAS NWE I ESR X December 2-3 2019

## Dissemination – communication - outreach

- ◊ Describe your outreach activities
- ◊ Conference attendance
- ◊ Secondment(s) (if applicable)

MSCA-ETN SAS NWE I ESR X December 2-3 2019

## Future career as MSCA fellow

- Describe your expectations regarding your future career as MSCA fellow

**Annex 11**  
**PPT Presentation “Conclusions of the meeting + next steps”**

# Safer Autonomous Systems

CONCLUSIONS OF THE MEETING  
PROJECT NEXT STEPS

MSCA-ETN SAS Network Wide Event 1  
2-3 December 2019, LAAS-CNRS, Toulouse - FRANCE

This project has received funding from the European Union's EU Framework Programme for Research and Innovation Horizon 2020 under Grant Agreement No. 812.788

MSCA-ETN SAS NWE1 2-3 December 2019

## WP1-3 Parallel Sessions

- Actions + outcome of the sessions: send to the PM
- S/T Coordinator Dries Vanooost will follow up
  - Through short Skype meetings:
    - Progress in research
    - Deliverables and milestones
    - Possible collaboration,
  - Dates will be set by a doodle to the ESRs
  - (Co-)Supervisor will be kindly invited
- 3-monthly meetings through Skype, starting in February 2020: all ESRs within each WP + the WP leader

MSCA-ETN SAS NWE1 2-3 December 2019

## MID-TERM MEETING WITH PO NINA

- ESRs presentations went well, thanks to all the ESRs
- All ESRs are on track, keep up the good work in your research the next coming years
- Project is running well as it goes, positive reactions regarding the implementation of the project

MSCA-ETN SAS NWE1 2-3 December 2019

## SUPERVISORY COMMITTEES

- The changes in the supervisory committees need to be justified towards the EC with justification, motivation + also the respective CV's of the new supervisory committee members
- Request for information will be sent out by PM next week
- Send everything regarding these changes/modifications to the PM **asap**
- Formal notifications are necessary through the EC Participant Portal so this is urgent

MSCA-ETN SAS NWE1 2-3 December 2019

## SUPERVISORY COMMITTEES Stated in the SAS Proposal

#	Host	Academic supervisor 1	Academic supervisor 2	Industrial supervisor	Completed # years of supervisory committee	Completed # of committee and resulted PMs
1	LAAS (FR)	Prof. A. Gouicheur (LAAS, FR)	Dr. M. Trapp (FHG, GE)	Dr. P. Becker (LR, UK)	23	15
2	FHG (GE)	Dr. M. Trapp (FHG, GE)	Prof. J.C. Faure (LAAS, FR)	Dr. S. Burton (Boch, GE)	39	37

MSCA-ETN SAS NWE1 2-3 December 2019

## SAS Supervisory Committees Since the start of the Project (Nov 1 2018)

ESR	Candidate	Host	Supervisors	Assessors/Mentors
ESR9	H. Tirmizi (Pakistan) (m)	KU Leuven	D. Pissoort (KU Leuven), G. Vandenbosch (KU Leuven), D. Vanoost (KU Leuven)	A. Ruddle (Horiba-Mira), P. Leroux (KU Leuven)
ESR10	F. Yan (China) (f)	UoY	S. Foster (UoY), I. Habli (UoY)	J. Guiochet (LAAS), E. Landre (Equinor)
ESR11	V. Gautam (India) (m)	UoY	R. Alexander (UoY), R. Hawkins (UoY)	R. Gansch (Bosch)
ESR12	T. Miao (China) (m)	RH Marine	D. Pissoort (KU Leuven), P. Sioets (KU Leuven)	E. el Amam (RH Marine), J. McDermid (UoY)
ESR13	H. Aftab (Pakistan) (m)	UoY	I. Habli (UoY)	J. Guiochet (LAAS), E. O'Carroll (PMT)
ESR14	---	Horiba-Mira	M. Nicholson (UoY), J. McDermid (UoY), A. Ruddle (Horiba-Mira)	D. Pissoort (KU Leuven)
ESR15	O. Dheu (France) (m)	KU Leuven	P. Valcke (KU Leuven)	P. Ringard (Airbus), D. Pissoort (KU Leuven)

MSCA-ETN SAS NWE1 2-3 December 2019

- 
- ## DELIVERABLES AND MILESTONES
- Deviation of Deliverables and milestones: more detailed information is needed why delayed, specify due dates, clarification why and how. MITIGATION PLAN >>> ACTION PLAN
  - Based on WP parallel sessions
  - Formal notifications regarding these changes are necessary through the EC Participant Portal in order to further align with the Action Plan as stated in the SAS Proposal
- MSCA-ETN SAS NWE1 2-3 December 2019

- 
- ## SOME IMPORTANT AND URGENT HOMEWORK...
- ESR14: Horiba-Mira > Recruitment Update
  - Horiba-Mira: Letter of Commitment with University of Coventry
  - Fraunhofer: Letter of Commitment with TU Munich
  - University of Toulouse: Letter of Commitment
  - Templates will be sent out by the PM
  - Please send the respective signed LoCs **asap** to the PM who needs to upload all these to the EC
- MSCA-ETN SAS NWE1 2-3 December 2019

- 
- ## REPORT NWE + ACTION ITEMS
- NWE Report + Action items will be sent out to all SAS Consortium members
  - Please follow up the action items
- MSCA-ETN SAS NWE1 2-3 December 2019

- 
- ## PCDP
- All recruited ESRs developed, in dialogue with their supervisors, a Personal Career Development Plan (PCDP).
  - Progress reports of the PCDPs to Supervisory Board are a 6 monthly recurring Deliverable.
  - So new updated PCDPs are foreseen at our NWE in York
- MSCA-ETN SAS NWE1 2-3 December 2019

## First Secondments (1)

13

[MSCA ETN SAS] EARLY STAGE RESEARCHERS						
ESR	First Name	Last Name	Affiliation	1 <sup>st</sup> Secondment Location	1 <sup>st</sup> Secondment Period	1 <sup>st</sup> Secondment Local Mentor
1	Rafael	Serra	LAAS-CNRS	Fraunhofer	May - June 2020 (2m)	M. Tropp
2	Yuan	Shao	Fraunhofer ESK	LAAS-CNRS	Jan - Mar 2020 (3m)	J.C. Fabre
3	João	Vitor	KU Leuven	University of York	Jan - Mar 2020 (3m)	I. Habli
4	Dejana	Ujrenovic	KU Leuven	LAAS-CNRS	Nov - Dec 2019 (5w)	J. Guochar
5	Aleksandra	Orzechkin	KU Leuven	University of York	Feb - April 2020 (3m)	J. Dawson
6	Josua	Vitorilo	LAAS-CNRS	Nialo	Feb - April 2020 (3m)	G. Saverac
7	Zaid	Tabir	University of York	LAAS-CNRS	Feb - April 2020 (3m)	H. Woenslynick
8	Abbas	Adke	Bech	TUM	Nov 2019 - Jan 2020 (2m)	F. Uggemeyer
9	Hassan	Tinjal	KU Leuven	University of York	Feb - April 2020 (3m)	J. Dawson
10	Fang	Tan	University of York	Equinor	Sep - Nov 2020 (3m)	E. Landre
11	Vibhu	Sharma	University of York	Bech	April - June 2020 (2m)	R. Gansch
12	Titineli	Waz	RH Marine	KU Leuven	April - June 2020 (3m)	D. Piscoot
13	Maris	Affab	University of York	LAAS-CNRS	Oct - Dec 2020 (3m)	J. Guochar
14	---	---	Horiba-MIRA	KU Leuven	April - June 2020 (3m)	J. Boydens
15	Orhan	Ozhu	KU Leuven	University of York	April - June 2020 (3m)	R. Alexander

## First Secondments (2)

14

- Modifications (schedule changes, topic, location) can only be performed after PREVIOUS APPROVAL and on request and should be communicated with the PM who reports this to the PO !!
- Check if ESR's nationalities cause issues for the foreseen secondments and if specific procedures need to be followed
- Align the secondment timings with the institutions hosting secondments
- Confirm the modifications to the PM

MSCA-ETN SAS NWE1 2-3 December 2019

## First Secondments (3)

15

- After each Secondment a Secondment Report needs to be written by the ESR, and signed by the ESR and the Secondment Hosting Supervisor. Template will be send out by Stephane.
- **IMPORTANT**  
The Actual Secondment Period needs to be submitted at the H2020 Participant Portal (under the Tab 'Researchers') as soon as the Secondment has ended, so not sooner!

MSCA-ETN SAS NWE1 2-3 December 2019

## Ethics

16

- EC required us to write a dedicated deliverable on ethical issues and potential dual use related to autonomous systems
- Deliverable written through collaboration between KU Leuven and Univ. of York
- Voluntary ethical self-assessment by every ESR
- Ethical Board:
  - KU Leuven: Prof. A. Vedder, Dr. D. Vanoost
  - UoY: Dr. I. Habli

MSCA-ETN SAS NWE1 2-3 December 2019

## SAS Project Visual Identity

17

### EU funding acknowledgement

This project has received funding from the European Union's EU Framework Programme for Research and Innovation Horizon 2020 under Grant Agreement No. 812.788

MSCA-ETN SAS NWE1 2-3 December 2019

## SAS Video

18

- A SAS Promo Video will be developed and published during the second year of the SAS Project
- This video will explain the project goals, and present the team and the collaborating partners.
- This video will be made in collaboration with Storyrunner. They are very acquainted with developing Marie Curie/Best Practice Award Winning Videos in collaboration with KU Leuven
- Development of the video is foreseen Feb-April 2020

MSCA-ETN SAS NWE1 2-3 December 2019

## Travel costs of the Partner Organizations

19

- Travel costs related to Project meetings and events will be reimbursed by the Beneficiary organizing the meeting or event (SAS C.A. [7.1.1.3]):
  - Subject to specific rules, limitations and processes of the Beneficiary who is reimbursing these costs
  - Proof of costs needed!
  - Up to a **maximum** amount > 2 cost categories for each event:
    - Max 400 euros for travel costs
    - Max 150 euros/day for hotel and catering costs
  - For maximum 1 participant per Partner Organization per event
- Please contact PM regarding the reimbursements

MSCA-ETN SAS NWE1 2-3 December 2019

## Next NWEs 2 and 3

20

- **SAS NWE 2 in York (UK) @ Dept. of Computer Science: 4 days + 1 day Co-Thinking Session**
  - Final Dates: **June 29 to July 3 2020**  
On Wednesday July 1<sup>st</sup> and Thursday July 2<sup>nd</sup> 1,5 days for the plenary meetings
- **SAS NWE 3 in Munich (GE) @ Fraunhofer: 4 days**
  - Final Dates: **November 17-20 2020**
- **More information will follow**
- **Letters of invitation can be asked from today on**

MSCA-ETN SAS NWE1 2-3 December 2019

## ITN Coordinator's Day Brussels

21

- H2020 MSCA ITN 2019 Coordinators' Info Day took place in Brussels on November 22 2019.
- Very useful information (e.g. Recruitment, Reporting, Open Access,...) regarding the implementation of ITN projects
- **Presentations and videos on:**  
[https://ec.europa.eu/info/itn-2019-coordinators-info-day\\_en](https://ec.europa.eu/info/itn-2019-coordinators-info-day_en)

MSCA-ETN SAS NWE1 2-3 December 2019

## SSC MARCH 16-20 2020 BRUGES

22

**Introduction to system safety engineering and management 2020**  
A five-day primer in system safety engineering - In collaboration with the University of York (UK).

The poster contains information about the event, including the venue (University of York), contact details, and a map of Bruges. It also features a small image of people in a meeting.

## SSC MARCH 16-20 2020 BRUGES

23

<https://iiv.kuleuven.be/brugge/m-group/Events/ssc2020>

The registration page includes sections for Registrations, Programme, Organizers, and Presenters. It provides details about the course content, including topics like system safety engineering, hazard analysis, and software safety. It also lists the names and affiliations of the organizers and presenters.

24

Special thanks to Raul, Luca, Dejana, Jérémie and Hélène for organizing this Network Wide Event here at LAAS-CNRS in Toulouse

MSCA-ETN SAS NWE1 2-3 December 2019

THANK YOU ALL FOR ATTENDING  
THIS IMPORTANT NWE AND  
MID-TERM REVIEW MEETING  
AND ALREADY LOOKING  
FORWARD TO SEEING YOU ALL IN  
YORK AT OUR SECOND NWE

Annex 12  
SAS NWE I Survey Form

This project has received funding from the European Union's EU Framework Programme for Research and Innovation Horizon 2020 under Grant Agreement No 812788

## MSCA ETN SAS NWE 1 @LAAS-CNRS Toulouse – Survey Form

Please fill out the survey form for the first two days of the MSCA ETN SAS NWE 1 at LAAS-CNRS in Toulouse, which took place on December 02 and December 03, 2019.

Regarding the scores: 1 = Poor, 5 = Excellent

### Monday December 2 2019

How satisfied were you with the provided progress report? \*

1     2     3     4     5

How satisfied were you with the WP parallel sessions? \*

1     2     3     4     5

How satisfied were you with the Individual ERS presentations? \*

1     2     3     4     5

Comments or Notes regarding the sessions on Monday December 2 2019
